Special Issue in Memory of Walter Deuber

Walter Deuber in Oberwolfach in 1973 (the photograph is part of the Oberwolfach photograph collection and is reproduced here with permission of the Oberwolfach centre).

Walter Deuber died on 16th July 1999 at the age of 56 after a one-and-a-half year struggle with cancer. On 6th October 2002 he would have celebrated his 60th birthday. In order to commemorate this date several of his friends, former students and colleagues came together in the evening of this day in Berlin and started a two-day conference on Combinatorics in honour of Walter Deuber.

This issue presents a collection of papers which were presented at this conference or submitted to the memory of Walter Deuber. We would like to thank all the authors, and the referees, for their contribution to this special issue.

Hans Jürgen Prömel
