Important new publications in

Linguistics and related areas

Machine Translation

By Bożena Henisz-Dostert, R. Ross Macdonald, and Michael Zarechnak
1979, xiv + 265pp., Clothbound, DM75/US$44.25
ISBN 90 279 7836 0

The main reasons for the recent significant and growing consideration given to machine translation are the practical need for large volumes of translations and the theoretical challenge posed by the linguistic problems involved in machine translation and machine-aided translation. The purpose of this book is to state and exemplify the principles which have guided the development of product-oriented, experimental machine translation.

Selected Writings

Volume V: On Verse, Its Masters and Explorers

By Roman Jakobson
1979, viii + 624 pp., Clothbound, DM165/US$97.50
ISBN 90 279 7686 4, In Russian and English

Devoted to the fundamentals of poetics, its principles and close links to linguistics, this book offers a comprehensive contribution of the science of verse, its theory and methodology, and presents a critical survey of earlier and present metrical theories. Questions of descriptive, historical, comparative, and general metrics are discussed, and special attention is given to the interplay of sound and meaning in poetry. Poetic imagery is analyzed, and the semantic aspects of poetry, and in particular poet's mythology is treated, with special reference to the Romantic epoch and Russian avant-garde.

Semiotics of Culture

Edited by Irene Portis Winner and Jean Umiker-Sebeok
1979, 290 pp., Clothbound, DM82/US$48.25
ISBN 90 279 7988 X

Representing a wide range of attempts to refashion and unify the fragmentary concepts and methods of the sciences of man, the contributions to this volume, inspired by such diverse fields as animal communication, anthropology, human ethology, mythology, poetics, and sociology, reflect the growing commitment of contemporary scholars to a thorough reexamination and redefinition of human culture from a semiotic point of view.

New publications on

Language and Society

Perspectives on American English

Edited by J. L. Dillard
1980, vii + 468 pp., Clothbound, DM110/US$69.00
ISBN 90 279 3367 7

This volume seeks to provide some essentially historical perspectives for the study of American English, including some viewpoints which traditionally have been overlooked. It also attempts, through the presentation of articles by specialists in those areas, to give a more complete account of certain varieties of the language, such as the English of Pennsylvania Germans and "Yinglish" (the English of Yiddish speakers), than has usually been provided. More recent works on Puerto Rican "Spanglish," Black English and Pidgin English varieties are also included.

The Relationship of Verbal and Non-Verbal Communication

Edited by Mary Ritchie Key
1980, xiv + 388 pp., Clothbound DM62/US$38.50;
Student edition DM20/US$12.50
ISBN 90 279 7878 6 Clothbound;
ISBN 90 279 7637 6 Student edition

Human communication involves both vocalization and movement. Rhythm and timing, for example, combine with the force and range of vocalization and movement to make up the suprasegments of human interaction. Theories of meaning must incorporate the total human expression. This book is comprised of contributions by authors from three continents describing research in language and nonverbal communication in cross-cultural ways.

American Indian and Indoeuropean Studies
Papers in Honor of Madison S. Beeler

Edited by Kathryn Klar, Margaret Langdon, and Shirley Silver
1980, xvi + 496 pp., Clothbound, DM135/US$84.50
ISBN 90 279 7876 X

The present volume is intended as a tribute to Madison Scott Beeler, for thirty-six years member and chairman of the departments of German, Linguistics, and Near Eastern Languages of the University of California at Berkeley. The grouping of contributions in this volume into American Indian and Indoeuropean studies highlights the areal scope of Professor Beeler's scholarly involvement, and his comprehensive interest in languages.

Persian Grammar
History and State of its Study

By Gernot L. Windfuhr
1979, x + 304 pp., Clothbound, DM128/US$80.00
ISBN 90 279 7774 2

Basically defined in terms of political and geographical considerations, this survey treats the languages in the country of Iran. Its objective is to describe the history and the present state of scholarship in the field of Persian grammar, not so much in terms of chronologically arranged annotated biographical lists, but rather in terms of what has been called scientific paradigms; not to present an all-inclusive handbook, but a critical, quite selective, though substantial survey of the major achievements in the analysis, description, and interpretation of the linguistic data.

Studia Linguistica et Philologica 7

Juncture

A Collection of Original Papers edited by
MARK ARONOFF and MARY-LOUISE KEAN

Topics include: juncture in the structuralist period; the phonological status of word- and phrase-boundary; an exposition of Selkirk's theory of prosodic domains; the phonological relevance of the formative boundary; the boundary after Latinate prefixes in English; syllable boundary in the English aspiration rules; psycholinguistic evidence for phonological boundaries—compounds, accessing of the lexicon, speech errors, Broca's aphasia.

144 pages, $25.00 (faculty/student discount 40%).

Order from: ANMA Libri, P.O. Box 876, Saratoga, Calif. 95070, USA.

The Structure of English Clauses

David J. Young,
University of Wales

A clearly written, practical guide, this book provides an introduction to a wide variety of English structures. David J. Young concentrates on a large and crucial area of English grammar, one which encompasses units of higher rank than words, and structures that have verbs rather than nouns as their nuclear elements. Focusing on the English language as it is actually spoken, Young closely integrates syntax with meaning and pays particular attention to the ways in which speakers signal their intentions. He goes on to show how verbal patterning is meaningful and outlines the criteria used by grammarians to distinguish one structure from another. A complete set of exercises, including solutions, is given for each topic.

December 1980 ISBN 0-312-76759-5 about 380 pp., cloth $27.50

Semantic Theory

Towards a Modern Semantics

Kurt Baldinger,
University of Heidelberg

The first English translation of the work of Kurt Baldinger, this book provides a comprehensive introduction to a theory of word-meaning familiar in continental Europe, but until now largely unknown in the English-speaking world. Divided into two parts, the book begins by addressing some theoretical aspects of linguistics and then presents practical analyses based on these constructs. Baldinger examines in depth both the traditional Odgen-Richards triangle and Heger's trapezium, and explores the analytical constructs of *semasiology* and *onomasiology*. Finally, Baldinger analyzes the many ways in which conceptual synonyms are differentiated in practice. The book assumes no previous experience in semiotics, making it an ideal reference source for both students and professional linguists.

1980 ISBN 0-312-71258-8 320 pp., cloth $27.50

$17.50

Cognitive Science Series

Syntax and Speech

William E. Cooper and Jeanne Paccia-Cooper

Syntax and Speech is the first extensive examination of the relation between sentence structure and the organization of speech. Combining methods of cognitive psychology, linguistics, and acoustics, the Coopers show that a surprising amount of syntactic information is conveyed by the subtle ways a speaker times the delivery of a sentence. $21.00

Culture and Inference

A Trobriand Case Study

Edwin Hutchins

This book takes a major step in psychological anthropology by applying new analytic tools from cognitive science to one of the oldest and most vexed anthropological problems: the nature of "primitive" thought. Hutchins finds that the Trobriand Islanders of Papua New Guinea reason no more primitively than people of Western cultures. $14.00

Language and Thought Series

Surface Structure

The Interface of Autonomous Components

Robert Fiengo

Surface Structure provides a complete and up-to-date exposition of the Revised Extended Standard Theory, a major variant of the Chomskian theory of language. This lucid and current discussion addresses many of the controversies in linguistics. $22.50

Readings in Philosophy of Psychology

Volume 1 and Volume 2

Ned Block, Editor

These two volumes provide a complete introduction to the philosophical problems underlying the modern study of mind and behavior. The first volume of this two-volume work covered general approaches to the study of mind; the second addresses the central topics in modern cognitive science.

$18.50, Vol. 1; $18.50, Vol. 2

Now in paper—

Mind in Society

The Development of Higher Psychological Processes

L. S. Vygotsky

"This selection of Vygotsky's important writings... offers the Western reader a new appreciation of the seminal contributions of one of Russia's most influential psychologists."—*Psychology Today*

INDUSTRIAL TEACHERS

Aramco offers more than a challenge in Saudi Arabia. More vacation, more chances to save, and up to 40 percent more pay.

Aramco needs outstanding people on the energy frontier in Saudi Arabia. We're offering outstanding incentives to get them: up to 40 percent pay premium, 40 days' vacation every 12½ months, and a chance to teach people who work on vast and challenging projects with the world's largest oil-producing company.

If you have the qualifications, we have openings now for Industrial Teachers, TESL or TEFL.

Teach Aramco's Saudi Arab employees job-related courses

Using current methods and materials, you will teach Saudi Arabs, to whom English is a second language, courses in math, chemistry, physics, history, and English. Your duties will involve preparing lesson plans and assignments, developing teaching methods to fit the trainees' needs, and evaluating their progress. Audiovisual aids and science equipment will be available to you to help demonstrate the necessary principles and concepts your students will need to grasp the knowledge required to perform their work with Aramco. In addition, you'll be able to request text and curricular revisions, and changes in administrative procedures.

From time to time you will be called on to hold conferences with a trainee, or with a supervisor to evaluate a trainee's level of achievement. Also, you will be required to diagnose learning problems and plan remedial teaching programs for these students.

Requirements: You must have a bachelor's degree and at least three years' teaching experience in your area of specialization. A valid teaching certificate and a master's degree are preferred. All English teachers must have had training in teaching English as a foreign language. All math and science teachers must have had courses in "new" math or "new" science.

Unsurpassed compensation and benefits

The Aramco salary is competitive and a cost-of-living differential increases it even further. In addition, Aramco people in Saudi Arabia receive a tax-protected premium which can amount to up to 40 percent of the base salary.

Money aside, Aramco offers an outstanding combination of benefits, including the long vacation, comfortable housing, abundant recreation, and an excellent American-style school system for the children.

Extra overseas bonus

Newly hired employees for Saudi Arabia also receive a one-time, lump-sum, fully tax-protected Overseas Employment Bonus of up to $5,000.

Interested? Just pick up the telephone and dial Aramco. Call our 24-hour line at (713) 654-3264. Call collect between 7 A.M. and 5 P.M. Central Time. After 5 leave a message with our answering service. If you don't phone, write for an application, or send your résumé, in confidence, to: Aramco Services Company, Department LAN120180SLCA, 1100 Milam Building, Houston, Texas 77002.

Announcing an important revision of a distinguished text

Aspects of Language

THIRD EDITION

DWIGHT BOLINGER,
Emeritus, Harvard University
DONALD A. SEARS,
California State University at Fullerton

This new Third Edition of a thorough and eclectic introduction to linguistics is considerably shorter and more accessible to beginning students than its predecessor. Aspects of Language, Third Edition, continues to cover the standard topics of language and the major linguistic theories and to encourage a scientific and analytic approach to thinking about language. By eliminating the more peripheral material, however, and condensing the discussion of central topics, the authors have reduced a text of nearly 700 pages to one of fewer than 400 pages.

Aspects of Language, Third Edition, includes material on the relationship of thought to language, the acquisition of language, and the implications of linguistic study for good writing. While recognizing the dominance of transformationalism, the authors give equal and unbiased treatment to alternative theories; and they offer a clear and readable presentation of current scholarship in sociolinguistics and psycholinguistics.

Of death and life—

Language Death

The Life Cycle of a Scottish Gaelic Dialect

Nancy C. Dorian

"Language death"—a linguistic process that results in the disappearance of a language—is the focus of Nancy Dorian in her examination of the speech of East Sutherland, a rugged coastal area of the Highlands of Scotland. A "speech island" of Gaelic, the East Sutherland dialect resisted extinction over a surprisingly long period.

Although it has long outlasted the predictions of its death, because of the strong Gaelic fisherfolk resilience, the dialect now nears the end of its existence. Its fate illustrates not only a linguistic process, but the social phenomena associated with the survival and imminent extinction of languages in many other societies.

The Social Life of Language

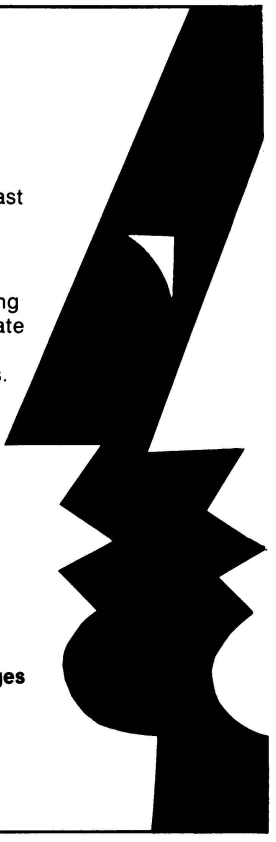

Gillian Sankoff

Foreword by Dell Hymes

Language defines and redefines the world for its speakers. But if the social situation is sufficiently compelling, a language will bend or change—a new language may evolve. Discussing the relationship between language and society, Sankoff demonstrates ways in which the existence of language emanates from its use in a social context.

A new volume in the Conduct and Communication series.

Speaking Your Language...

Reference and Generality

An Examination of Some Medieval and Modern Theories

Third Edition

By PETER THOMAS GEACH. This new third edition offers further evidence of Professor Geach's extraordinary skill in critical analysis. Philosophers and students–even those who have read one or both of the earlier editions–will want it for their own libraries. $19.50

Pragmatism and Semantics

An Empiricist Theory

By CAROL A. KATES. What is the nature of communicative competence? Carol Kates addresses this crucial linguistic question, examining and finally rejecting the rationalistic theory proposed by Noam Chomsky and elaborated by Jerrold J. Katz, among others. $17.50

The Language-Makers

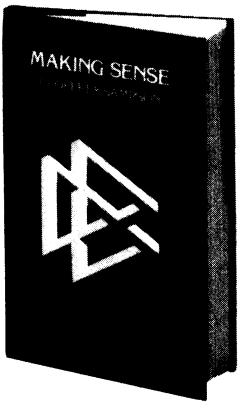

By ROY HARRIS. "This is a lively, provocative, and ambitious book."–*Max Black.* $19.50

CORNELL UNIVERSITY PRESS

P.O. Box 250, Ithaca, New York 14850

Making Sense

Geoffrey Sampson

When we use language, are we making sense—finding, creating, reapplying new words, and forms of expression to fit a potentially infinite range of subjects—or are we just very clever machines, seemingly "creative" but limited in what we can think and talk and write about?

In *Making Sense* Geoffrey Sampson answers that question emphatically in favor of the creative view. He meets Chomsky on the hitherto unchallenged ground of grammatical structure; reinterpreting Chomsky's own unimpeachable data, he shows that there is no "science" of language. *Making Sense* shows the discpline of "theoretical linguistics" as a self-created, self-directed, self-justifying—though possibly unconscious—academic hoax.

1980 224 pp. $16.95

Documentation in the *Oxford English Dictionary*

Shakespeare and Nashe as Test Cases

JURGEN SCHAFER. The most important documentation of the history of the English language is the *Oxford English Dictionary*. This study develops statistical methods which enable us to measure the dictionary's accuracy in assigning first citations to authors and periods and to forecast ante-datings and their distribution by author, period, alphabet, and word class.

1980 186 pp.; 5 line drawings $29.50

Speech, Writing, and Sign

A Functional View of Linguistic Representation

By Naomi S. Baron
An important introduction to language that examines systems of writing and signing with the same rigor as it does speech. Explores possible nonlinguistic sources of these communication schemes. Profusely illustrated from all fields of experience.
320 pages, 73 illus. (2 color plates), bibl., notes, index **$22.50**

The Structure of Intonational Meaning

Evidence from English

By D. Robert Ladd, Jr.
". . . should be read by every linguist who has any special interest in intonation. As a general overview of the field, it may in fact also be the best available book-length study for the specialist." —Bruce T. Downing, University of Minnesota
256 pages, bibl., notes, indexes **$18.50**

Myth and Language

By Albert Cook
An examination of the complex interaction of myth and language, with cogent arguments for the dependence of literary expression on mythic formulations. This intelligent study also deals with questions in anthropology, psychology, and social history.
352 pages, bibl., notes, index **$22.50**

The Signifying Animal

The Grammar of Language and Experience

Edited by Irmengard Rauch and Gerald F. Carr
Significant studies that focus on the interface between semiotics and linguistics. Topics include the definition of language; the pragmatics, semantics, and syntax of the language act; and language in relation to nonverbal communication.
(Advances in Semiotics Series)
384 pages, illus., index **$24.95**

Novantiqua

Rhetorics as a Contemporary Theory

By Paolo Valesio
Valesio's major new theory systematically links figures of speech with the argumentative structure of speech. An original and critical introduction to the study of linguistic structures against the background of cultural and social history.
(Advances in Semiotics Series)
384 pages, bibl., notes, index **$22.50**

Language: Introductory Readings, *Third Edition*

edited by VIRGINIA P. CLARK, PAUL ESCHHOLZ, and ALFRED ROSA,
University of Vermont

The Third Edition of this widely used anthology represents a major revision and updating: a majority of the selections are new, and more than a third have appeared since 1977, when the Second Edition was published. The new edition provides added coverage of phonology, morphology, semantics, pragmatics, writing, sign language, and non-Indo-European language families. As before, each reading is preceded by a headnote and followed by questions for review and discussion. Each of the eight parts concludes with student projects and a bibliography.

February 1981 **about 650 pages** **paperbound** **$9.95 (tentative)**

CONTENTS:

Preface

PART ONE LANGUAGE AND ITS STUDY
*1. Language: An Introduction, W. F. Bolton
*2. What is Linguistics? Winfred P. Lehmann
*3. The Origin of Language, Dwight Bolinger
4. Language, Thought, and Culture, Peter Woolfson
**5. Work with the Wolof, Patricia M. Greenfield and Jerome S. Bruner

PART TWO LANGUAGE ACQUISITION AND THE BRAIN
*1. The Acquisition of Language, B. A. Moskowitz
*2. The Several Grammars of Childhood, Dwight Bolinger
*3. Developmental Milestones, Eric H. Lenneberg
*4. Speech Pathology and Dialect Differences, W. Wolfram
*5. Predestinate Grooves, Jean Aitchison
6. Feral and Isolated Man, Roger Brown
*7. The Development of Language in Genie, Victoria Fromkin et al.
*8. Language and the Brain, Adrian Akmajian, Richard A. Demers, and Robert M. Harnish
*9. The Loss of Language, Howard Gardner

PART THREE ANIMAL COMMUNICATION
1. Language and Animal Signals, Claire Russell and W. M. S. Russell
*2. The Nim Chimpsky Experiment, Herbert S. Terrace
*3. Performing Animals: Secrets of the Trade, Thomas A. Sebeok and Jean Umiker-Sebeok

PART FOUR PHONOLOGY, MORPHOLOGY, AND SYNTAX
*1. Phonology, R. E. Callary
*2. Morphology and Morphological Processes, Ohio State University *Language Files*
3. Word-Making: Some Sources of New Words, W. Nelson Francis
*4. The Grammars of English, Madelon E. Heatherington
*5. What Do Native Speakers Know About Their Language? Roderick A. Jacobs and Peter S. Rosenbaum
*6. A Primer of Transformational Grammar, Suzette Haden Elgin
*7. Form and Meaning in Natural Languages, Noam Chomsky
*8. The Universality of Language Design, Ronald W. Langacker

PART FIVE SEMANTICS, PRAGMATICS, WRITING, AND SIGN LANGUAGE
*1. Semantics, Julia S. Falk
*2. The Semantic Differential, Joseph S. Kess
*3. Components of the Social Context of Speaking, Dell Hymes
*4. Pragmatics, Madelen E. Heatherington
*5. Language Variation, H. A. Gleason, Jr.
*6. Languages and Writing, John P. Hughes

PUBLICATIONS

of the

Linguistic Society of America

LANGUAGE, the journal of the Linguistic Society of America, carries technical articles dealing with problems of linguistic science, reviews of recently published linguistic works, and notes of interest to professional linguists.

As supplements to LANGUAGE, the Linguistic Society of America issues a series of occasional publications, LANGUAGE MONOGRAPHS. These are included in the subscription price of the journal, but may also be purchased separately. In the LANGUAGE MONOGRAPH series, the Society publishes independently subsidized studies which are too long to appear as articles or are otherwise unsuitable for publication in the journal. The method of application for admission to this series of supplements, and the terms of publication, may be secured from the Secretary of the Society.

SPECIAL PUBLICATIONS in the field of linguistic science are issued by the Society from time to time. These are not included in the subscription price of the journal.

MEETING HANDBOOKS, which contain program listings and abstracts of papers presented at LSA Annual Meetings, 1965 onward, may be purchased separately.

A list of publications in print and a price list are available from the LSA Secretariat, 3520 Prospect Street NW, Washington, DC 20007. Reprint editions and back copies may be ordered from Kraus Reprint Corporation, Route 100, Millwood, New York 10546, or Kraus-Thomson Organization, FL-9491, Nendeln, Liechtenstein. Prices for specific issues and/or volumes may be obtained from those addresses.
