Access to Food Constitutes a Human Right

World hunger is on ever-present scourge that claims 35,000 lives each day.

Access to food constitutes a human right. In 1976, the United States Congress passed a Right to Food Resolution which declared the sense of the congress to be "that all people have a right to a nutritionally adequate diet"

Physicians Against World Hunger (PAWH), a non-profit, tax-exempt organization was founded so that physicians could collectively defend this human right by raising funds to support well-recognized, reputable organizations that are directly engaged in working with the poor primarily for the purpose of ending death by starvation.

Please join us-together physicians must help bring an end to world hunger.

Techni-Care™ Surgical Scrub

99.99% Bacterial Reduction in only 30 seconds

Techni-Care...A new technology in a surgical scrub exhibits outstanding antimicrobial efficacy *without* dermal irritation.

Fully substantiated by independent testing in vivo and in vitro, Techni-Care Surgical Scrub both disinfects and conditions *in less time than any prior technology available to healthcare personnel.*

Results of Time Kill tests demonstrate that Techni-Care eliminates gram negative and gram positive bacteria at 99.99% in 30 second contact.

Outstanding Bactericidal Activity without skin irritation

Techni-Care's active ingredient, chloroxylenol (PCMX) at 3%, eliminates bacteria, while a host of skin conditioning agents work synergistically to condition and soften the skin. Exceptionally mild, Techni-Care's dermal conditioning ingredients, include cocamidopropyl PG-Dimonium Chloride Phosphate, Aloe Vera Gel, Collagen and Propylene Glycol.

Techni-Care has rated a "minimal irritation" in the Draize Dermal irritation test. Specially blended formulation for dermal conditioning, as well as for bacterial reduction. Techni-Care Surgical Scrub is soothing to dermal tissue while phospolipids promote natural turgor.
