Women's Studies Programs

The women's studies programs listed below are interdisciplinary; they combine courses in literature, language, and art with studies in sociology, anthropology, economics, political science, history, philosophy, psychology, and other fields. Many programs follow an integrative approach, with related courses offered through several autonomous departments rather than a formally recognized women's studies department.

All correspondence concerning the Women's Studies Programs section, including corrections and additions, should be addressed to Ed Gunn, MLA, Member and Customer Services, 26 Broadway, 3rd floor, New York, NY 10004-1789 (egunn@mla.org).
