Report of Council Proceedings

The General Secretary read the following Report:

At yesterday's meeting it was decided that owing to the great increase of work in the Association's office a Deputy Secretary should be appointed.

On the subject of merit awards the General Secretary stated that the Merit Awards Committee were in the process of reviewing the method of obtaining information about the activities of Consultants in the provinces. It was hoped that new procedure would be instituted whereby opinions would be obtained in the Regions both from acknowledged leaders of the profession and from representatives of every specialty. If this new machinery came into operation, the R.M.P.A. would be on the same footing as the Royal Colleges, and would give information about the London Regions only. It was not yet possible to give details, but these might be available later in the year.

The Treasurer's report indicated that the income of the Association during the past year amounted to £11,908 and the expenditure to £6,429, leaving an excess of income over expenditure of £5,479 compared with £2,663 in 1961. Council congratulated the Treasurer on this excellent statement. Council agreed to increase the overdraft facilities for the International Congress for Psychotherapy in 1964 by £3,000 to £6,000 in all. It was also agreed that the subscription to the World Psychiatric Association should be fixed at £100 per annum.

The Editor-in-Chief reported that as a result of the sales campaign 200 new subscriptions had been obtained, 130 of these being in North America. It was intended to work towards issuing the *Journal* monthly from January, 1965.

The Registrar reported that a further very successful series of Maudsley Bequest lectures had been held, as a result of which over 80 persons had promised to join the Association. Council congratulated the Registrar on the course.

The Librarian drew attention to the Historical Exhibition which was to be held at the Wellcome Library from March to June, and it was hoped the widest possible publicity would be given to this.

On the recommendation of the Education Committee, Council decided that all hospitals should be asked to furnish information about their facilities and arrangements for post-graduate education. It was hoped the material thus obtained might enable

https://doi.org/10.1192/S0007125063307668 Published online by Cambridge University Press

the Association to advise the Royal College of Physicians regarding future arrangements for the D.P.M. Examination.

The Parliamentary Committee reported that several criticisms had been made of the Ministry Circular relating to war pensions. Council agreed to make representations to the Ministry of Health with a view to the circular being amended and brought into better accord with the principles of the Mental Health Act. The Parliamentary Committee also reported that they had given consideration to the effects on the practice of psychiatry which might result if Britain joined the European Economic Community. Council decided to ask the Psychological Medicine Committee of the B.M.A. to hold a watching brief regarding this topic in case it became a live issue once more.

Council approved the general arrangements for papers proposed for the Annual Meeting in July. The Papers and Discussions Committee supported a proposal from the Canadian Psychiatric Association transmitted by Smith, Kline and French that there should be a transatlantic link discussion during the Canadian Mental Health Week. The Public Relations Committee had also supported this proposal. The proposed subject for discussion was "Psychiatry in Hospital Medicine". The Council authorized the Papers and Discussions Committee to make the necessary arrangements in collaboration with Messrs. Smith, Kline and French.

The Public Relations Committee reported that they had considered a suggestion from the Ministry of Health that it might be unwise for the Press to be invited to the May Meeting at Broadmoor. Council concurred with the view of the Committee that the policy of the Association was to invite the Press to all its open meetings. Dr. Stafford-Clark and Dr. T. P. Rees were nominated to put this point of view to the Ministry, but it was agreed that the Ministry's decision in this matter would have to be accepted, as the Ministry would be our hosts at Broadmoor. The Public Relations Committee also reported that in a recent play on sound radio the suggestion had been made that a non-medical person might legally describe himself as a psychiatrist. It was considered that the context in which this statement had occurred was offensive to psychiatry and liable to mislead the public. Dr. Stafford-Clark had protested to the B.B.C., and Council agreed to give full support to his action and to press the B.B.C. to amend their error.

Council considered a proposal to form a Section of Forensic Psychiatry. It was concluded that it would be more appropriate for Forensic Psychiatry to be represented by a Sub-Committee of the Research and Clinical Section and it was decided that such a Sub-Committee should be set up at the May Meeting to be held at Broadmoor. This would not prevent Forensic Psychiatry from becoming a Section at a later date.

Council also decided that non-members of the Association should not be co-opted as members of Working Parties of the Association or its Sections. They also decided that if Working Parties obtained evidence from persons other than representatives of accredited associations, and incorporated this evidence in their reports, this fact must be made known when the report was presented to Council.

The Special Committee on the Future of Organized Psychiatry and the Revision of the Bye-Laws reported that the *ex parte* statements regarding the future of organized psychiatry had been circulated and it was stated that the Special Committee would be meeting in the near future to consider the next step. The proposed revisions in the Bye-Laws were accepted with certain amendments.

The Special Committee considering the future accommodation of the Association reported on the possibility of renting accommodation in the new building of the Royal College of Physicians. It was clear that there were certain problems still to be resolved and Council asked the Special Committee of the Senior Officers to consider the matter further.

Council approved the Report of the Sub-Committee appointed to consider the Scott Report.

The following dates were approved for meetings in 1964:

Quarterly Meeting:	Wednesday and Thursday, 12 and 13 February.
Quarterly Meeting:	Tuesday and Wednesday, 5 and 6 May.
Annual Meeting:	Tuesday–Friday, 7–10 July.
