Looking Back

At this time last year, we published the Presidential Address given at the Oxford Conference in 2016. Regrettably, we had to apologise for errors made in the production:

> The Editor apologises to Peter Neumann for the fact that the first paragraph of the second section of his Presidential Address in the November 2016 issue of the *Gazette* was accidentally omitted.

As stated in the March 2017 *Gazette* the corrected article can be seen at:
