THE RISK OF A SERIOUS **INFECTION** FROM A **CONTAMINATED NEEDLESTICK** IS **ONE IN** 10.

THE **PROTECTIV™** I.V. SAFETY SYSTEM PROTECTS **AGAINST ACCIDENTAL NEEDLESTICKS.**

ISN'T IT TIME YOUR **HOSPITAL** BECAME A **PROTECTIV™ ENVIRONMENT?**

It's no accident so many hospitals are switching to the **PROTECTIV™ I.V.** Catheter Safety System from Critikon.

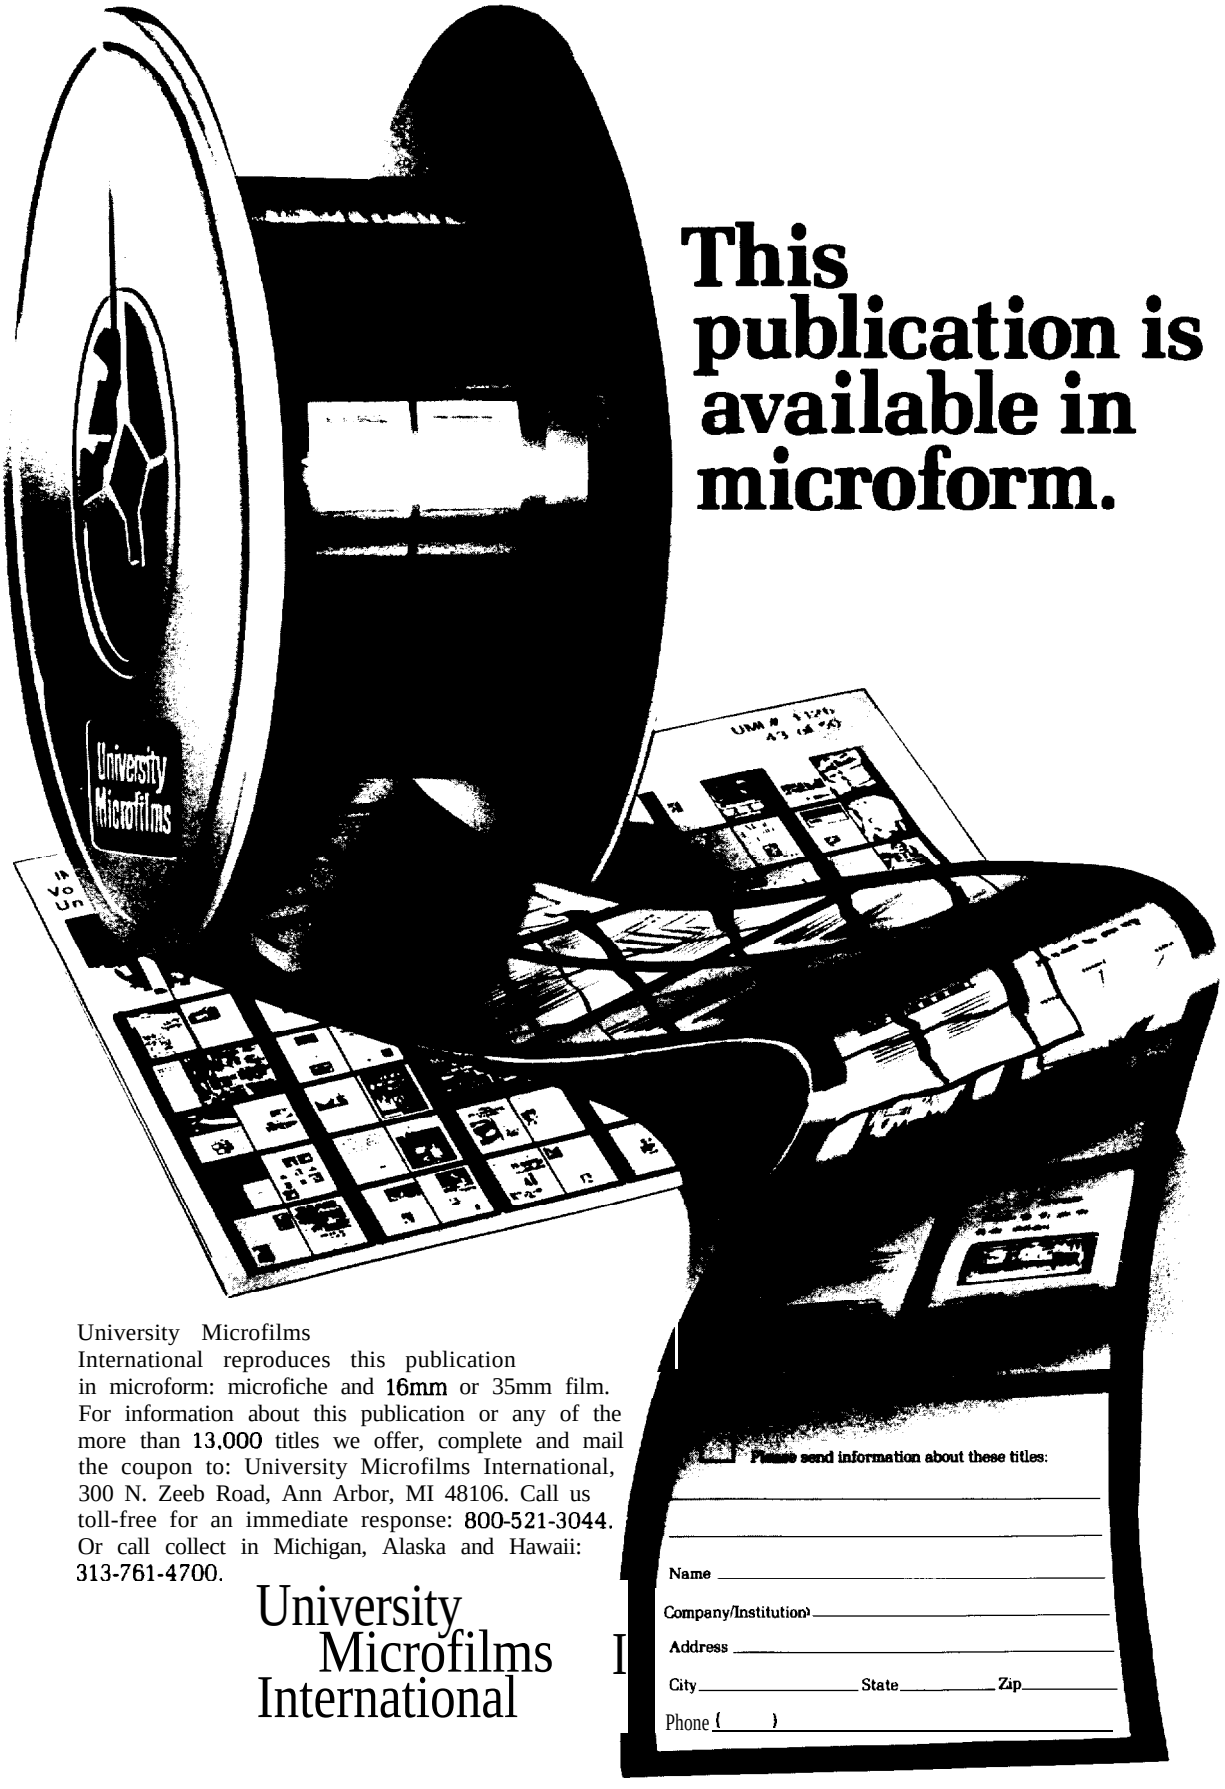

Today, your risk of infection from a needlestick contaminated with Hepatitis B is one in 10. An alarming 80% of all exposures to the AIDS virus among healthcare workers are through needlesticks. And the Centers for Disease Control estimates that by 1995, the number of people in the U.S. infected with HIV will reach 7 million. The most disturbing fact of all? A growing number are undiagnosed cases leaving healthcare workers

stick protection during and after use. As you slide the catheter off the introducer needle, the protective guard glides over the contaminated needle. A reassuring "click" tells you when the needle is locked safely inside the guard.

CHANGING TO THE **PROTECTIV™** SAFER SYSTEM IS **GOOD PROTECTION.**

Not only does it protect the lives of healthcare workers, but it protects the hospital from the

DO YOU REALLY KNOW WHAT YOU'RE GETTING INTO?

If you work in a high-risk medical area, you know the hazards. So does Ansell. That's why we've introduced our new E.P.'" Gloves. They provide the extra protection you need because E.P. Gloves are manufactured and tested to even tighter requirements than the current industry standards for surgical gloves. They also provide features for added protection not available with other gloves in the marketplace today.

Ansell E.P. Gloves Provide **Extra** Protection By:

- Testing to ten times tighter **AQL** than the industry standard for surgical gloves*
- 100% electronic inspection for pinholes
- **No po**wder added
- **Thicke**r latex
- long, **12**" cuff
- Textured wet-grip surface
- Meeting industry guidelines for handling cytotoxic **drugs****
- Availability in four sizes, **pe**tite, small, medium, and **lar**ge

So get your hands into Ansell's new E.P. Gloves — before your get into anything else. For more information and a FREE pair of E.P. Gloves, call today.

INFECTION CONTROL AND HOSPITAL EPIDEMIOLOGY

The Society for Hospital Epidemiology of America (SHEA) and SLACK Inc. Copyright and Republication Policy

The Society for Hospital Epidemiology of America (SHEA) and SLACK Inc. hold copyright on *Infection* Control and *Hospital Epidemiology*. We request that all authors of works transfer to SHEA and SLACK Inc. all rights, title, and interest to such works, including copyright. In accord with the Copyright Act of 1976, we must acquire every author's signature to effect the transfer. A written work cannot be considered for publication until the 'Assignment of Copyright' form is signed by the author or authors and is on file at the editorial offices. Please submit this signed from with your manuscript. In the event that a manuscript is not accepted for publication, this agreement will be returned to the authors.

Signed 'Assignment of Copyright' forms confirm that a work submitted has not previously been published, is not subject to copyright or other rights except those of the author to be transferred to SHEA and SLACK Inc., and is not under consideration for publication elsewhere, except under circumstances communicated to us in writing at the time the work is submitted.

Permission to reproduce any part of the works published by SHEA and SLACK Inc. in *Infection Control and Hospital Epidemiology* in any form or by any means, electronic or mechanical, is not permitted without written permission from SLACK Inc.

Assignment of Copyright

In consideration of SLACK Incorporated and The Society for Epidemiology of America (collectively called the 'Publisher') in publishing my (our) submitted manuscript, the undersigned hereby transfer(s), assign(s), and otherwise convey(s) all copyright in the manuscript to the Publisher. The undersigned declares that the manuscript is original and, to the best of the undersigned's knowledge, contains no matter that is libelous or unlawful or that infringed upon anyone else's rights of copyright.

In addition, we affirm that the work is the work of every author listed, and is not under consideration for publication elsewhere, except under circumstances communicated to us in writing at the time the work is submitted.
