High Value Processing

Also our focus

High Value Processing: that's what you aim for. We support you in your objectives, based on decades of dedicated research and numerous successful projects all over the world.

We provide innovative high value poultry processing solutions for all types of poultry, all processing steps and all production capacities.

Marel Stork Poultry Processing equipment meets the highest quality standards and is known for its high yields, reliability, easy operation and lowest cost of ownership.

We focus on solutions for:

- live bird handling and stunning
- defeathering
- evisceration and giblet harvesting
- chilling, including maturation chilling
- automatic in-line weight and quality grading
- cut-up, deboning and fillet handling
- X-ray bone detection
- slicing and portioning
- fresh value added and further processing
- weighing, sorting and batching
- plant control systems
- service, spare parts and preventive maintenance programs.

LESS FEED, MORE MEAT.

LESS FEED – + MORE MEAT

Hubbard
YOUR CHOICE, OUR COMMITMENT

Feed cost represents over 70% of live production cost of a broiler, the highest levels in history. Hubbard offers the best products to save feed costs on breeder and broiler level.

- The "Feedsaver" concept of the JV and F15 breeders saves about 15% of feed to produce a broiler day-old-chick compared to conventional breeders.
- All Hubbard broilers have an excellent FCR compared to other breeds.

Just use less kg of feed to produce 1 kg of live broiler, 1 kg of carcass or 1 kg of total meat !

Hubbard is a company of

Thinking beyond equipment to deliver improved nutrition and health to your animals.

At Bühler, we understand not only the technology behind producing feed, but also the meaning of feed value for the animal. Our developments are heading towards a significant reduction of feed costs, while at the same time optimizing animal performance, health and welfare. With Bühler's latest developments, the hammer mill Granulex™ for high capacity grinding up to 75 t/h and the pellet mill Kubex™ T saving up to 20 % of energy, you make not only a safe investment into animal health and performance, but also into low production costs. At the end, Bühler pays off – both for animals and feed millers.
