INDEX TO VOL. XC.

The General Index covers original articles, reviews and the epitome, and includes subjects dealt with as well as the titles of articles.

The following names are printed in SMALL CAPITALS: authors of original articles and of books reviewed. Names of authorities referred to in the text are in ordinary type.

(E.) indicates the *Epitome* section; the title of the abstract is followed by the author's name, thus: "Age and human ability. Miles, W. R. (E.)."

The names of authors referred to in the Epitome section are listed in Part II.

PART I.—GENERAL INDEX.

Abnormal behaviour in the rat, studies of. XVI. A case of generalized inhibitory neurosis. Maier, N. R. F., and Wapner, S. (E.), 896

Acetylcholine and acetylcholinesterase contents of organs of B_1 deficient and normal rats. Lissak, K., *et al.* (E.), 922

„ and adrenaline, the effect of, on the spinal-reflex-increasing action of strychnine. Oti, Y. (E.), 658

„ „ the influence of, on the spinal reflex. Oti, Y. (E.), 658

„ a comparison of atropine and curare as antagonists of. Luco, J. V., and Altamarino, M. (E.), 674

„ and the physiology of the nervous system. Fulton, J. F., and Nachmansohn, D. (E.), 658, 823

„ -atropine reversal phenomenon, action of adrenaline on. Stehle, R. L., and Melville, K. I. (E.), 677

„ convulsant treatment of patients with mental disease by intravenous injection of. Harris, M. M., and Pacella, B. L. (E.), 623

„ does blood contain free? Classen, P. H. (E.), 658

„ effect of chloroform and ether on the sensitivity of muscle to. Torda, C. (E.), 677

„ „ of glutamic acid on the formation of. Nachmansohn, D., *et al.* (E.), 823

„ „ of insulin on the responses of the frog heart and rectus abdominis to. Welsh, J. H. (E.), 925

„ eserine, atropine and nervous integration. Gesell, R., and Hansen, E. T. (E.), 673

„ level of rat cerebral cortex under conditions of anoxia and hypoglycemia. Welsh, J. H. (E.), 806

„ -like substance, liberation of, in the inner ear during stimulation by sound. Martini, V. (E.), 921

„ „ nature of anaphylactic shock and of shock produced by agar, the. Danielopolu, D. (E.), 922

„ mechanism of the action of. Genuit, H., and Kubel, W. (E.), 921

„ papaverine, muscle adenylic acid and "irenal," the hypotensive effects of. Genuit, H., and Mussgnug, G. (E.), 921

„ -phosphate and β-glycerophosphate, preparation and pharmacological testing of. Nagy, T. V., and Mihalik, I. (E.), 925

„ removal of, by cholinesterase injections and the effect thereof on nerve impulse transmission. Mendel, B., and Hawkins, R. D. (E.), 809

„ significance of, as a humoral transmitter of nerve stimulation with central nervous system. Utunomiya, S. (E.), 658

„ sweat response to. Kahn, D., and Rothman, S. (E.), 658

„ synthesis of, in sympathetic ganglia and cholinergic nerves. Feldberg, W. (E.), 812, 921

„ the action and sphere of usefulness of the humoral transmitter. Hueber, H. F. (E.), 658

„ the distribution of, in brains of rats of different ages. Welsh, J. H., and Hyde, J. E. (E.), 811

„ the formation of, a new enzyme choline acetylase. Nachmansohn, D., and Machado, A. L. (E.), 808

„ treatment of schizophrenia. Cohen, L. H., *et al.* (E.), 795

https://doi.org/10.1192/S0368315X00157184 Published online by Cambridge University Press

Adrenal-cortical hormones, the significance of, in psychiatry and neurology. Klimmer, R. (E.), 829
Adrenaline- and ephedrine-HCl, effect of, on anaphylactic shock in the rabbit. Vallery-Radot, P., *et al.* (E.), 926
Aetiology, principles of. Halliday, J. L. (E.), 627
Affective psychoses, a mathematical theory of. Lettvin, J. Y., and Pitts, W. (E.), 915
Age of sixty years, some problems arising from a study of mental patients over the, by F. Post, 554
Alcohol addicts, the psychology and treatment of. Meyer, F. M. (E.), 627
,, and cerebral vasodilatation. Loman, J., and Myerson, A. (E.), 672
Alcoholism, conditioned reflex treatment of. Lake, C. B. (E.), 833
,, heredity as an etiologic factor in chronic. Lemere, F., *et al.* (E.), 826
,, results of hospital treatment of. Wall, J. H., and Allen, E. B. (E.), 788
Alpha rhythm, the course of acquisition of a conditioned response of the occipital. Shagass, C., and Johnson, E. P. (E.), 637
Altitude sickness in fliers. Vokhmianin, P. F. (E.), 917
Amnesia, psychogenic: the refusal to remember, by D. N. Parfitt and C. M. Carlyle Gall, 512
,, real and feigned. Lennox, W. G. (E.), 613
Analeptics, influence of some, on body temperature of normal and narcotized rabbits. Hahn, F. (E.), 925
Anatomy, of the nervous system, by W. E. le Gros Clark, 36
Aneurine, pharmacodynamic test of. Chauchard, P. (E.), 675
,, the liberation of, by stimulating nerves. Muralt, A. v., and Zemp, J. (E.), 824
Anoxia, anoxic, severe, report of a case of, with recovery. Ward, R. L., and Olson, O. C. (E.), 917
,, cerebral. Dublin, W. B., and Brown, R. W. (E.), 630
Anticholinesterase or motility of extrinsically denervated intestine *in situ*, action of. Youmans, W. B., *et al.* (E.), 922
Anxiety states, the relation between, and organic disease. Dunbar, F. (E.), 917
,, and fatigue. Braceland, F. J., and Rome, H. P. (E.), 917
Arteriosclerotic, senile and presenile psychoses, by W. Mayer-Gross, 316
Audiogenic seizures, the production of, by interrupted tones. Galambos, R., and Morgan, C. T. (E.), 635
Avitaminosis C in guinea-pigs, variations of nervous excitability in. Chauchard, B. and P. (E.), 916
,, disturbances of neuromuscular excitability during dietary imbalance and. Lecoq, R., *et al.* (E.), 919

Barbital, sodium barbital and elixir of barbital N.F., the comparative rate of gastro-intestinal absorption of. Seeberg, V. P., and Dille, J. M. (E.), 671
Barbiturate poisoning, sodium succinate as an antidote for, and in the control of the duration of barbiturate anaesthesia. Soskin, S., and Taubenhaus, M. (E.), 670
,, ,, the picrotoxin treatment of. Dorsey, J. F. (E.), 903
,, reduction of fluid loss from damaged (burned) tissues by a. Beecher, H. K., and McCarrell, J. D. (E.), 671
Barbiturates, a possible method for the determination of prolonged action of. Cole, V. V. (E.), 832
,, in the urine, the diagnostic value of the rapid detection of, in cases of poisoning. Denis, X., and Lambrechts, A. (E.), 832
Barbituric acid derivatives, relationship between chemical structure and inhibitory action of, on rat-brain respiration *in vitro*. Fuhrman, F. A., and Field, J. (2nd). (E.), 672
,, ,, group, significance of artificial respiration in accidents with anaesthetics of the. Donatelli, L., and Inguilla, W. (E.), 924
,, ,, pharmacology of secamyl and of its combination with antipyrine. Krop, S., *et al.* (E.), 924
,, ,, series, the action on the heart of narcotics of the. Donatelli, L. (E.), 924
Basal ganglia in monkeys and chimpanzees, experimental analysis of the functions of the. Kennard, M. A. (E.), 904
Bellevue intelligence scales in schizophrenic patients, effects of age on. Weider, A. (E.), 651
Benzedrine and caffeine, the influence of, on the performance of rapidly exhausting work by untrained subjects. Foltz, E. E., *et al.* (E.), 831
,, effect of, on higher nervous activity. Alpern, E., *et al.* (E.), 831
,, —modern stimulants of the nervous system. Ginetsinkii, A. G., *et al.* (E.), 832
,, pervitin and caffeine, the influence of, upon work output and recovery when rapidly exhausting work is done by trained subjects. Foltz, E. E., *et al.* (E.), 831
,, sulfate and caffeine citrate, the effects of, on the efficiency of college students. Flory, C. D., and Gilbert, J. (E.), 802
,, the influence of, on work-decrement and patellar reflex. Alles, G. A., and Feigen, G. A. (E.), 831

https://doi.org/10.1192/S0368315X00157184 Published online by Cambridge University Press

Benzene, action of, on certain central nervous regulating mechanisms. Guerra, F. (E.), 677
Benzol, action of, on certain central nervous regulating mechanisms. Guerra Perez-Carral, F. (E.), 833
Bilirubin, quantitative studies of, in body fluids. Lepehne, G. (E.), 660
Biochemistry of the nervous system, by D. Richter, 74
Biopsies of the brain of schizophrenic patients and experimental animals. Kirschbaum, W. R., and Heilbrunn, G. (E.), 794
Biotin-deficient rats, muscle and nerve in. Lazere, B., *et al.* (E.), 662
Bi-sexuality of man. Myerson, A., and Neustadt, R. (E.), 830
Bismuth in Heine-Medin's disease. Calabrese, A. (E.), 675
Blood-cerebrospinal fluid barrier, a study with radioactive isotopes of the permeability to ions of the. Greenberg, D. M., *et al.* (E.), 823
Body-image, disorders in the, in the clinical pictures of psychoses. Bychowski, G. (E.), 639
,, the significance of, for personality assay. Brown, E. A., and Goitein, P. L. (E.), 639
Brain, action of anaesthetics on the mineral composition of the. Serantes. M. E. (E.), 924
,, acute physiological effects of gunshot and other penetrating wounds of the. Webster, J. E., and Gurdjian, E. S. (E.), 646
,, cells, the isoelectric point of, in intoxication by hypnotics. Aizawa, T. (E.), 673
,, correlation between sex and chemical constitution of the human. Wei, A., and Liebert, E. (E.), 828
,, damage, a practical clinical test for organic. Hunt, H. F. (E.), 891
,, excised rat, effect of iodoacetate on respiration and glycolysis. Fuhrman, F. A., and Field, J., jun. (E.), 824
,, experimental swelling of. Obrador, S., and Pi-Suñer, J. (E.), 618
,, hypertensive disease of the. Scheinker, M. (E.), 625
,, injury, an unusual, by J. C. Sawle Thomas, 588
,, in poliomyelitis, changes in acid-soluble P compounds in the. Kabat, H. (E.), 920
,, lesions associated with experimental "epileptiform" seizures in the monkey. Barrera, S. E., *et al.* (E.), 882
,, metabolism of the perfused dog. Handley, C. A. (E.), 827
,, respiration, action of diphenyloxazolidenedione on, at varied temperature levels. Fuhrman, F. A., and Field, J. (2nd). (E.), 669
,, ,, *in vivo*. Johgbloed, J. (E.), 665
,, ,, inhibition of, by picrotoxin. Klein, J. (E.), 920
,, -stem, integrated facial patterns elicited by stimulation of the. Weinstein, E. A., and Bender, M. B. (E.), 620
,, ,, pathology, the significance of carbon monoxide injury in. Sturm, A. (E.), 670
,, ,, physiologic consequences and anatomic degenerations following lesions of the primate. Mettler, F. A. (E.), 892
,, surgery, therapeutic, abstract and categorical behaviour following. Kisker, G. W. (E.), 913
,, the pathological changes in the, in fatal hypoglycemia. Lawrence, R. D., *et al.* (E.), 668
,, tissue, effect of serum on survival time of, and revival of cerebral oxidation. Wortis, J. (E.), 795
,, ,, ,, of temperature on the oxygen consumption of. Field, J., jun. (E.), 904
,, ,, influence of phenylalkylamines on oxygen uptake of. Froentjes, W. (E.), 673
,, ,, *in vitro*, synthesis of ascorbic acid by. Pandra, J. (E.), 918
,, ,, the metabolism of, *in vitro* with and without glucose. Sanz, M. C. (E.), 667
Brody, M. B., mental testing, 727
,, prolonged memory defects following electro-therapy, 777
Bromism, the incidence of, at Warren State Hospital. Kippen, A. A. (E.), 901
Bulbocapnine, the effect of, on defensive conditioned reflexes. Denyabin, V. S. (E.), 667
Bulgarian cure, the treatment of post-encephalitic Parkinsonism with belladonna root. Lehoczky, T. v. (E.), 833
Burden, J. F., foreign service neuroses, 746

Caldwell, W. A., and Hardwick, S. W., vitamin deficiency and the psychoses, 95
Camphor therapy, alterations in communicability, content of thought and affective responses during irritative. Friedman, E. (E.), 641
Carbocholine. Kulakovskii, B. (E.), 926
Carelessness, on the specialization of. Thorndike, E. L. (E.), 789
Carlyle Gall, C. M., and Parfitt, D. N., psychogenic amnesia: the refusal to remember, 512
Carotid sinus, the effects of pressure on, at various altitudes. Palitz, T., *et al.* (E.), 917
Cataplexy and its treatment. Dynes, J. B. (E.), 640
Catatonia, experimental, symptoms of, in the audiogenic and electro-shock reactions of rats. Stainbrook, E., and de Jong, H. (E.), 634
Central nervous system, age and reorganization of. Kennard, M. A., and Fulton, J. F. (E.), 830
,, ,, ,, carbohydrate metabolism. Huszák, I. (E.), 825

https://doi.org/10.1192/S0368315X00157184 Published online by Cambridge University Press

Central nervous system, effect of exposure to oxygen at high barometric pressure on higher functions of the. Bean, J. W., and Wapner, S. (E.), 826
,, ,, ,, humoral intermediation of nerve cell activation in the. Gesell, R., *et al.* (E.), 786
,, ,, ,, hypertension and loss of pressor response to angiotoxin as the result of trauma to, and severe hemorrhage. Page, I. H. (E.), 825
,, ,, ,, in man, action of intrathecally injected prostigmine, acetylcholine and eserine and the. Kremer, M. (E.), 927
,, ,, ,, ,, the physiological effects of CO_2 on the activity of the. Brazier, M. A. B. (E.), 828
,, ,, ,, mitogenetic variation of the blood in cases of tumors of the. Lotsman, L. A. (E.), 922
,, ,, ,, of dogs and cats at different ages, the glycogen content of various parts of the. Chesler, A., and Himwich, H. E. (E.), 665
,, ,, ,, regulation of the fats, lipoids and ketone bodies in the blood by the. Schrade, W. (E.), 920
Cephalin, brain, a mixture of phosphatides. Folch, J. (E.), 670
Cerebellum, afferent areas in the, connected with the limbs. Adrian, E. D. (E.), 796
Cerebral arteriovenous oxygen difference. Himwich, D. E., and Fazekas, J. F. (E.), 791, 793
,, artery, the anterior, in the macaque monkey. Campbell, J. B., and Forster, F. M. (E.), 902
,, blood, the oxygen content of, in patients with acute symptomatic psychoses and acute destructive brain lesions. Himwich, H. E., and Fazekas, J. F. (E.), 880
,, circulation, acute arrest of, in man. Rossen, R., *et al.* (E.), 790
,, cortex and medulla oblongata, the effect of CO_2 tension on the metabolism of the. Craig, F. N. (E.), 920
,, ,, during induced convulsions, rapid changes in the O_2 tension of. Davies, E. W., *et al.* (E.), 882
,, ,, ether and metabolism in the. Craig, F. N. (E.), 673
,, ,, experimental application of sulfonamide drugs to the. Ingraham, F. D., and Alexander, E., jun. (E.), 675
,, ,, further investigation of the peripheral results of localized pharmacological action on the. Chauchard, A., *et al.* (E.), 925
,, ,, in primates, control of movements by the. Hines M. (E.), 916
,, ,, motor responses to stimulation of, in absence of areas 4 and 6 (*Macaca mulatta*). Kennard, M. A., and McCulloch, W. S. (E.), 644
,, ,, of a man believed to be 107 years old. Riese, W., and Zfass, I. S. (E.), 793
,, ,, of chimpanzee, note on organization of the tactile sensory area of. Woolsey, C. N., *et al.* (E.), 647
,, ,, subjective disturbances of the sense of pain from lesions of. Michelsen, J. J. (E.), 914
,, damage, persistent, etc., following sulfathiazole administration. Luetscher, J. A., jun., and Blackman, S. S., jun. (E.), 832
,, ,, that may occur in diabetes, insulin reaction and the. Murphy, F. D., and Purtell, J. (E.), 672
,, metabolism in hypoxia. Gurdjian, E. S., *et al.* (E.), 885
,, removals, extensive unilateral, in the primate. Mettler, F. A. (E.), 632
,, tissue, acid-soluble P compounds of. Stone, W. E. (E.), 665
Cerebroside from the spleen in Gaucher's disease, the sugar of the. Lieb, H., and Gunther, V. (E.), 669
,, of the spleen in Gaucher's disease, the sugar in the. Klenk, E., and Rennkamp, F. (E.), 921
Cerebrosides. Klenk, E., and Schumann, E. (E.), 669
,, control of conditions in the hydrolysis of, for their volumetric determination. Lanfranchi, F. (E.), 827
Cerebrospinal fluid, a new reaction for the study of globulin in the. Grigorescu. (E.), 659
,, ,, a simple method for the determination of all protein fractions and of the total protein content in normal and pathological. Ujsághy, P. (E.), 659
,, ,, changes in the, following spinal anaesthesia. Konwaler, B. E. (E.), 661
,, ,, diffusion of sulfonamides from the blood into the. Bechgaard, P., *et al.* (E.), 673
,, ,, glucose content of, in meningitis. Schuster, G. (E.), 822
,, ,, of the human being, concentration of procaine in, after subarachnoid injection. Koster, H. (E.), 675
,, ,, protein, rheumatoid arthritis as a cause of increased. Ludwig, A. O., *et al.* (E.), 660
,, ,, substitutes for, as colloidal gold controls. Bossak, H. N., *et al.* (E.), 660
,, ,, the importance of the ascorbic acid content of, from the standpoint of differential diagnosis. Wirth, J. (E.), 660
Child psychiatry, by E. M. Creak and J. Shorting, 365

https://doi.org/10.1192/S0368315X00157184 Published online by Cambridge University Press

Cholesterol, spinal fluid, the significance of, in differential diagnosis. Kujath, G. (E.), 822
Choline, colorimetric determination of. Marenzi, A. D., and Cardini, C. E. (E.), 658
„ glycerophosphoric ester prepared by enzyme action and synthetically, pharmacological action of. Jeney, A. v., *et al.* (E.), 676
Cholinesterase. Mendel, B., and Rudney, H. (E.), 659
„ Reichert, W., and Wieland, T. (E.), 659
„ activity, determination of the. Sack, A., and Zeller, E. A. (E.), 659
„ „ as proposed by Longo, Colaciuri and Sorrentino, the change in the determination of the. Pighini, G. (E.), 922
„ „ effect of hormones on contraction of striated muscle and on. Torda, C. (E.), 826
„ and ascorbic acid, relation between. Frommel, E., *et al.* (E.), 922
„ concentration in spinal cord of cats, effects of dorsal root section. Nachmansohn, D., and Hoff, E. C. (E.), 810
„ further study of. Reichert, W., and Schnarrenberger, C. (E.), 659
„ inhibiting action of *Tabernanthe iboga* on serum. Vincent, D., and Sero, I. (E.), 676
„ inhibition of, and pharmacological action of local anaesthesia. Ammon, I., and Zipf, K. (E.), 658
„ in normal and pathological cerebrospinal fluid in man. Birkhauser, H. (E.), 659
„ level in normal adults and in patients with myasthenia gravis, the effect of muscular exercise on the serum. Stoner, H. B., and Wilson, A. (E.), 828
„ muscular activity and. Croft, P. G., and Richter, D. (E.), 908
„ relation of, to acetylcholine and blood-pressure variation. Reichert, W., and Frisch, W. (E.), 823
„ III: specific tests for true cholinesterase and pseudocholinesterase. Mendel, B., *et al.* (E.), 922
„ specificity of. Riechert, W., and Schmid, E. (E.), 659
„ the inactivation of, by morphine, dilaudid, codeine and desomorphine. Wright, C. I., and Sabine, J. C. (E.), 674
„ the type of, present in brain tissue. Mendel, B., and Rudney, H. (E.), 829
Chronaxia, vestibular, balanced partial inanition. Mouriquand, G., and Coisnard, J. (E.), 662
Chronaxie curve after fatigue, action of prostigmine on the. Bourguignon, G., and Morichau-Beauchant, J. (E.), 677
Cocaine, effect of spinal injection of, on blood-pressure in dogs. Jourdan, F., and Guillet, R. (E.), 676
Coeliac ganglia, experimental investigation of visceral afferent synapses in. Freund, S., and Sheehan, D. (E.), 647
Coleman, S. M., psychopathology, 152
Colour perception, a physiological theory of. Granit, R. (E.), 830
Concussion, changes in brain volume and blood contact after experimental. White, J. C., *et al.* (E.), 922
Convulsive seizures associated with pyridoxine deficiency. The nutritional basis of abnormal behavior in rats: IV. Patton, R. A., *et al.* (E.), 919
„ shock therapy, the present status of. Bennet, A. E. (E.), 640
Conditioned reflexes, negative, versus absence of response elicited from external inhibition. Allen, W. F. (E.), 915
Conduction and synaptic transmission of reflex response to stretch in spinal cats. Lloyd, D. P. C. (E.), 648
Confusional insanity, acute, and delirium, by E. S. Stern, 761
Constitutional analysis. Freyhan, F. A. (E.), 901
Convulsant drugs, liberation of potassium from the dog-brain by the action of. Cirado, V. H., *et al.* (E.), 672
Convulsion therapy, by L. C. Cook, 435
„ „ theory of the rationale of. Abse, W. (E.), 888
Convulsions, experimental, effect of high CO_2 concentrations on. Moussatche, H. (E.), 926
Cortex, functional organization of the medial aspect of the primate. Bailey, P., *et al.* (E.), 811
„ motor, mode of representation of movements in the. Walshe, F. M. R. (E.), 626
„ neural mechanisms of the electrical rhythm of the cerebral. Obrador Alcalde, S. (E.), 828
Cortical electrical activity of the rat, effects of morphine on. Cohen, R. L., and Wikler, A. (E.), 925
„ impulses, conduction of, and motor management of convulsive seizures. Hoefer, P. F. A., and Pool, J. L. (E.), 624
Cortical localization of symbolic processes in the rat. Epstein, M. A., and Morgan, C. T. (E.), 636
„ „ „ „ Morgan, C. T., and Wood, W. M. (E.), 644
„ potentials, distribution of, resulting from insufflation of vapors, etc. Allen, W. F. (E.), 880

https://doi.org/10.1192/S0368315X00157184 Published online by Cambridge University Press

Cortico-spinal section in monkeys, nature of paresis following lateral. Cannon, B. W., *et al.* (E.), 808
Cortico-subcortical connections in the chimpanzee, physiological neuronography of some. Garol, H. W., and McCulloch, W. S. (E.), 906
Cook, L. C., convulsion therapy, 435
Creak, E. M., and Shorting, J., child psychiatry, 365
Creatinine and muscle metabolism. Gautier, J. A. (E.), 669
Crichton-Miller, H., and Nicole, G. H., psychotherapy, 307
Crime and delinquency, by W. Norwood East, 382
,, senescence and senility, by W. Norwood East, 835
Croft, P. G., Jones, M. S., and Richter, D., vitamins B_1 and C in effort syndrome, 603
Curare, experiences with 3,057 administration, of, to 232 psychotic patients treated with metrazol. Cummins, J. A. (E.), 653
Curran, D., and Mallinson, P., psychopathic personality, 266
Cyclopal, the pharmacology of. Dille, J. M., and Kipple, H. M. (E.), 671

Delinquency and crime, by W. Norwood East, 382
Delirium. Romano, J., and Engel, G. L. (E.), 884
Depressed patients, a follow-up study of one hundred and eleven non-hospitalized, after fourteen years. Ziegler, L. H., and Heersema, P. H. (E.), 614
Depression, a study of acute neurotic, as seen in military psychiatry and its differential diagnosis from the depressive psychosis, by G. T. Tayleur Stockings, 772
,, by A. Lewis, 256
,, variation of blood diastase and glucose in. Roberts, C. S., *et al.* (E.), 902
"Deterioration," a rapid test for, with comparison of three techniques. Hayman, M.(E.), 898
Dystonia. Herz, E. (E.), 884

East, W. Norwood, crime, senescence and senility, 835
,, delinquency and crime, 382
Effort syndrome, vitamins B_1 and C in, by P. G. Croft, M. S. Jones and D. Richter, 603
EEG, a simple method of determining frequency spectrums in the. Engel, G. L., *et al.* (E.), 794
,, and clinical studies on criminal psychopaths. Silverman, D. (E.), 620
,, ,, in obsessive-compulsive. Pacella, B. L., *et al.* (E.), 882
,, changes in the, during a cycle of morphine addiction. Andrews, H. L. (E.), 655
,, ,, following insulin shock therapy. Knott, J. R., and Gottlieb, J. S. (E.), 791
,, ,, following metrazol shock therapy. Knott, J. R., *et al.* (E.), 790
,, classification of epileptic patients and control subjects. Gibbs, F. A., *et al.* (E.), 621
,, effect of striated muscle paralysis induced by erythroidine on the. Girden, E. (E.), 665
,, effects of certain forms of emotion on the normal. Thiesen, J. W. (E.), 795
,, foci associated with epilepsy. Gibbs, E. L., Merritt, H. H., and Gibbs, F. A. (E.), 618
,, in chickens with avitaminosis B_1. de Finis, M. L., and Odoriz, J. B. (E.), 919
,, in post-traumatic epilepsy. Gibbs, F. A., *et al.* (E.), 882
,, in psychopathic personality. Knott, J. R., and Gottlieb, J. S. (E.), 655
,, in the selection of normal recruits. Solomon, P., *et al.* (E.), 918
,, investigation on the so-called alpha waves in the rabbit. v. Ledebur, J. F. (E.), 805
,, of decorticate monkeys. Kennard, M. A. (E.), 646
,, of epileptics, the nature of transient outbursts in the. Williams, D. (E.), 887
,, parallelism in changes of sensory function and, in anoxia and the effect of hypercapnia under these conditions. Gellhorn, E., and Hallman, H. (E.), 818
,, potential, the encephalophone, a new method of investigating. Beevers, C. A., and Furth, R. (E.), 827
,, slow waves of circulatory origin in the. Thiesen, J. W. (E.), 813
,, studies in asthma with some personality correlates. Rubin, S., and Moses, L. (E.), 818
,, study of 275 candidates for military service. Hardy, J. E., *et al.* (E.), 663
,, ,, of the action of *Latrodectus mactans* spider bite. Odoriz, J. B. (E.), 824
,, the effects on, of chronic lesions of basal ganglia, thalamus and hypothalamus of monkeys. Kennedy, M. A. (E.), 808
