Mexico
climate vulnerability atlas, *149*
Micronesia, Federated States of, 60
mining, 93, *117*
abandoned mines, 145, *149*
Canada, 3
coal mining
Great Barrier Reef catchments, 242, 251
United States, *149*
mitigation hierarchy, 138
models, 103, 116, 123
need for, 35
monitoring. *See* information
multilateral development banks, 70
multi-level governance, 178, 187
cumulative environmental problems, and, 44
Italy, 281–284
Murray-Darling Basin, Australia, 155, *158*

Namibia
conservation law, *118*
Environmental Investment Fund, *120*
Event Book System, *118*
Natura 2000, 294, 303–308
natural capital, 27, 80, 85, *115*, 124
nature restoration law
European Union, *149*
generally, 136
Nepal, 33, 99
new environmental governance, 154
New York City, Air Complaint Program, *114*
New Zealand (Aotearoa), 99
non-government organizations, 191, 198
coordination, role in, 189, 195, *199*, *202*, 269
non-use, as impact, 276
norm sustainers, 46, 302

offsets, *149*
carbon, 139
co-benefits, 140
conceptualization, importance of, 138
equivalence, 138
feasibility of, 139
Great Barrier Reef, *164*
no net loss, 139
reversal, risks of, 138
spatial aspects, 140
strategy for intervention, generally, *134*, *136*
unintended harms, 139
water law
Montana USA, *120*
Washington state USA, *202*
oil and gas law
Canada, *126*
United Kingdom, *126*
optimism, 11
outcomes-based regulation, 146

Panama, 61
Papua New Guinea
fisheries law, *118*, *167*
path dependence, 42, 154, 174
performance standards, 135, 140, 146, 168, 172
persuasion. *See* intervention: sermons
Peru, 13, 61
Philippines, 91
plastics-related law
Vanuatu, *149*
policy drift, 45, 79, 201
policy layering, 45, 154
policy mixes, 133–155, 174
adaptive management, and, 171
Great Barrier Reef case study, 256–272
intervention, for, 7
South Tyrol case study, 274
politics, 137, 147–148, 154, 193, 204, 227
Great Barrier Reef, related to, 245, 249, 264
polluter pays principle, *120*, 144
