COMPREHENSIVE SUBJECT, AUTHOR, TITLE INDEX[1] VOLUME 29, 1980

F. A. MUMPTON AND J. K. GATTIE

A

Activation energy
- iron oxides, oxyhydroxides by hydrochloric, perchloric acid dissolution 269

ADAMS, J. M. (with A. W. HEWAT), Hydrogen atom positions in dickite 316

Adsorption (see also Cation exchange)
- alkylphosphoric acid on montmorillonite, hectorite, kaolinite, celadonite in decane 285
- boron on illite, montmorillonite, kaolinite, as function of pH, B concentration in solution 198
- chlordimeform on montmorillonite, illite, kaolinite, vermiculite 143
- complexes of montmorillonite with picloram, IR 191
- EG on amine-substituted montmorillonites 60
- herbicides on bentonite in aqueous systems 205
- large organic cations on bentonite in aqueous systems 205
- NH_3, pyridine, NO_2 on silica-hectorite intercalation complex 153
- oil on Al-derivatives of chrysotile, kinetics 69
- picloram by montmorillonite, saturated by Al, Fe^{3+}, Cu^{2+} and coated with hydrous oxides 191
- styrene on quaternary ammonium-montmorillonite 294
- sulfolane on cation-substituted montmorillonites, IR 71
- uranium on montmorillonite by $(UO_2)^{2+}$ cation exchange 10
- uranium on montmorillonite, function of ionicity 10
- water on clinoptilolite, types, desorption 403

Adsorption of alkylphosphoric acid on kaolinite and smectite in an organic medium (decane), by B. Siffert and J. J. Trescol 285

Adsorption of ethylene glycol on amine-substituted montmorillonites, by J. L. Burba, 3rd and J. L. McAtee, Jr. 60

Akaganeite
- activation energy, TEM 269
- dissolution rate in hydrochloric, perchloric acid 269

Albite
- authigenic formation, in zeolitic tuffs of Nevada Test Site 385

Alcohol
- grinding of chrysotile in 161
- long-spacing organics for calibrating long spacings of interstratified minerals 67
- surface area, solubility of chrysotile ground in 161
- tetradecanol, XRD 67

Alkaline lake
- aluminosilicate gel, in Teels Marsh, Nevada 341
- analcime as indicator of 31
- Jurassic, formation of trioctahedral smectite in black shale, mudstone environment 31
- zeolite authigenesis from volcanic ash in, Green River Formation 365
- zeolite authigenesis from volcanic ash in, Teels Marsh, Nevada 341
- zeolite authigenesis in, dependence on lake chemistry 341

Alkylammonium
- montmorillonite complexes with polystyrene, preparation, IR, electrical properties 294

Alkylphosphoric acid
- adsorption on kaolinite, montmorillonite, hectorite, celadonite in decane 285
- -kaolinite, -montmorillonite, -hectorite, -celadonite complexes, IR 285

Allevardite (see Rectorite)

Allophane
- dehydroxylation, dehydration 124
- effect of SiO_2/Al_2O_3 ratio on thermal reactions of 124
- Fe content, crystallinity index, EPR 23
- inclusions in halloysite, effect on outgrowths 1
- IR, XRD, chemical analyses 124
- polymerization of silica in, during thermal treatment 124
- precursor of squat ellipsoids of halloysite 1

Aluminum
- derivatives of chrysotile, surface area, zeta potential, oil adsorption 69
- extraction of, from Virginia soil clays by photolytic oxalate treatment 429
- goethites, synthesis, properties, stability as function of Al content 91
- -montmorillonite, -hydrous oxide-coated montmorillonite, IR of picloram complexes with 191
- oxide variation with bulk density in diabase saprolite 184
- release during carbonic acid dissolution of phlogopite in open, closed systems 101, 107

https://doi.org/10.1346/CCMN.1981.0290611 Published online by Cambridge University Press

Alunite
mid-IR spectra, remote sensing by mid-IR spectroscopy 76
Amine
-substituted montmorillonites, synthesis, surface area 60
-substituted montmorillonites, XRD, TGA, adsorption of EG 60
Ammonium
quaternary, montmorillonite-polystyrene complex, preparation, electrical properties, IR 294
-treated dioctahedral smectite, IR of, for determination of interlayer surface heterogeneity 260
-treated dioctahedral smectite, IR of, for determination of tetrahedral substitution 260
-treated dioctahedral smectite, IR of, thermally treated 260
-treated montmorillonite, interstratified structures with EG and water, XRD, distribution of layers 40
-treated montmorillonites/EG interstratification complex, calculation of layer charge 47
Amorphous (noncrystalline)
aluminosilicate gel, hydrothermal treatment of 446
aluminosilicate gel, in tuffs, Teels Marsh, Nevada, formation of, SEM 341
aluminosilicate gel, kaolinite-like products from, XRD, IR, DTA, surface area 446
aluminosilicates, silica in kinetic model of zeolite paragenesis in tuffs 323
material, production by heating attapulgite 53
material, production of, by grinding chrysotile in water, alcohols, hydrocarbons 161
phillipsite from aluminosilicate gel, tuffaceous sediments, Teels Marsh, Nevada 341
Amphibole
book review, *Short Course Notes on Mineralogical Techniques of Asbestos Determination,* edited by R. L. Ledoux 459
Analcime
authigenic, from zeolite precursors in tuff in Green River Formation 365
authigenic, in Green River Formation, chemical analyses, SEM, petrography 365
diagenetic, in zeolitic tuffs, Nevada Test Site, with K-feldspar, mixed-layer illite/smectite, albite 385
diagenetic, Nevada Test Site, formation from clinoptilolite 385
diagenetic, Nevada Test Site, SEM, chemical composition 385
in Jurassic black shale, indicator of alkaline lake environment 31
in tuffaceous sediments, Teels Marsh, Nevada, associated with phillipsite 341
precursor of K-feldspar, zeolitic tuff in Green River Formation 365
role in kinetic model of zeolite paragenesis 323
SEM 365, 385
Anion exchange
capacity for fluoride, of H^+-montmorillonite, H^+-kaolinite, Na^+-hectorite, Na^+-montmorillonite 285
Anion-exchange capacity (AEC) (see Anion exchange)
Announcement
18th annual meeting, The Clay Minerals Society 160, 240
meeting, Minerals and Chemicals in Glass and Ceramics—The Next Decade 320
symposium, Geologic Materials: An SEM View From Within 80
Zeo-Agriculture '82—A Conference on the Use of Natural Zeolites in Agriculture and Aquaculture 412
Anorthite
hexagonal, synthesis with Ca-zeolites from nepheline, in open hydrothermal system 171
synthesis with Ca-zeolites from basaltic volcanic glass, oligoclase in open hydrothermal system 171
AOCHI, Y. (with W. J. FARMER), Infrared spectroscopy of picloram interactions with Al(III)-, Fe(III)-, and Cu(II)-saturated and hydrous oxide-coated montmorillonite 191
Application of electron paramagnetic resonance and Mössbauer spectroscopy in the investigation of kaolinite-group minerals, by J. Komusinski, L. Stoch, and S. M. Dubiel 23
APRIL, R. H., Trioctahedral smectite and interstratified chlorite/smectite in Jurassic strata of the Connecticut Valley 31
Arsenic
nonoxidation of As(III) to As(V) by clay minerals 219
role of Mn in oxidation of As(III) to As(V) by freshwater lake sediments 219
Asbestos (see also Chrysotile)
Al-derivatives, kinetics of oil adsorption, surface area 69
book review, *Short Course Notes on Mineralogical Techniques for Asbestos Determination,* edited by R. L. Ledoux 459
defiberization, by grinding in water, hydrocarbons, alcohol 161
for elimination of used oil emulsions 69
grinding of, in water, hydrocarbons, alcohol 161
Atomic coordinates
H, in boehmite, by XRD and molecular orbital studies 435
H, OH, in dickite, by neutron diffraction 316

Attapulgite (see also Palygorskite)
Ca-treated, dehydrated Ca-treated, water loss, surface area, CEC, Mg-release, SEM 53
Ca-treated, isomerization of adsorbed parathion on thermally treated, Ca-exchanged 53
Ca-treated, loss of zeolitic water at 110°C 53
Ca-treated, stability of parathion on, by structure, hydration changes 53
Ca-treated, two-step loss of bound water, at 250°C, 450°C 53
Attrition (see Grinding)
Authigenesis (see also Diagenesis)
formation of laumontite, thenardite, gypsum, quartz, in hot spring deposits 1039
formation of phillipsite from rhyolitic glass, aluminosilicate gel, Teels Marsh, Nevada 341
formation of trioctahedral smectite in Jurassic black shale, mudstone 31
in Jurassic alkaline lakes, of black shale, mudstone 31
of heulandite-group minerals, K-feldspar, analcime in tuff of Green River Formation 365
zeolite, clay minerals, feldspars, kinetic model of paragenesis in tuffaceous sediments 323
zeolite formation in tuff of Green River Formation 365

B

BAILEY, S. W. (with T. H. SWANSON), Redetermination of the lepidolite-2M_1 structure 81
BARNES, IVAN (with T. H. MCCULLOH, V. A. FRIZZELL, JR., and R. J. STEWART), Precipitation of laumontite with quartz, thenardite, and gypsum at Sespe Hot Springs, western Transverse Ranges, California 353
Basal spacing
Ca-bearing rectorite, from roseki deposit 236
homoionic montmorillonite-chlordimeform adsorption complexes 143
Na^+-hectorite, Na^+-montmorillonite, H^+-kaolinite, H^+-montmorillonite 285
of interstratified minerals, calibration with long-spacing organics 67
organoammonium-montmorillonite in styrene 294
uranyl montmorillonite, variation with RH, temperature 10
Virginia soil clays, before and after photolytic oxalate treatment 429
Basalt
basaltic volcanic glass, anorthite, Ca-zeolite synthesis from, in open hydrothermal system 171
weathered, trioctahedral, intermediate di-, trioctahedral smectite in soils from 277
BASTOVANOV, MARIJA (with A. TSUNASHIMA and G. W. BRINDLEY), Adsorption of uranium from solutions by montmorillonite; compositions and properties of uranyl montmorillonites 10
Beidellite
/margarite (rectorite) from roseki deposit, XRD, IR, DTA, chemical analysis, TEM 236
Bentonite (see also Montmorillonite, Smectite)
adsorption of large organic cations on, in aqueous solution 205
burial, contact metamorphism of clays in, in Mancos Shale 249
illite/smectite in, chemical composition, XRD, formation from smectite 113
K-, chemical composition, XRD, formation 113
percent illite in illite/smectite in, by XRD 249
Black shale
deposition of trioctahedral smectite in Jurassic alkaline lakes 31
trioctahedral smectite in, transformation to chlorite/smectite 31
Boehmite
crystal structure refinement 435
H positions, OH orientation, by single crystal X-ray diffraction 435
molecular orbital study 435
Bonding
hydrogen-bond geometry in dickite, by neutron diffraction 316
Book review
Advanced Chemical Methods for Soil and Clay Minerals Research, edited by J. W. Stucki and W. L. Banwart 319
Continental Red Beds, by P. Turner 79
Short Course Notes on Mineralogical Techniques of Asbestos Determination, edited by R. L. Ledoux 459
Boron
adsorption on illite, kaolinite, montmorillonite, as functions of pH, B concentration in solution 198
Boron adsorption by clay minerals using a phenomenological equation, by R. Keren and U. Mezuman 198
BRINDLEY, G. W. (with A. TSUNASHIMA and MARIJA BASTOVANOV), Adsorption of uranium from solutions by montmorillonite; compositions and properties of uranyl montmorillonites 10
BRINDLEY, G. W., book review, *Advanced Chemical Methods for Soil and Clay Minerals Research,* edited by J. W. Stucki and W. L. Banwart 319
BRINDLEY, G. W., Long-spacing organics for calibrating long spacings of interstratified clay minerals 67
Brine
hydrothermal, vermiculite formation in, Atlantis II Deep, Red Sea 454
interstitial, sodium carbonate, reaction with tuffaceous sediments of Green River Formation 365
interstitial, Teels Marsh, Nevada, chemical composition, relation to authigenic zeolites 341

https://doi.org/10.1346/CCMN.1981.0290611 Published online by Cambridge University Press

Brucite
formation of chlorite/smectite by fixation of brucitic layers in trioctahedral smectite 31
BURBA, 3RD, J. L. (with J. L. MCATEE, JR.), Adsorption of ethylene glycol on amine-substituted montmorillonites 60
Burial and contact metamorphism in the Mancos Shale, by P. H. Nadeau and R. C. Reynolds, Jr. 249
Burial diagenesis (see Diagenesis)
Burial metamorphism (see Metamorphism, Diagenesis)

C

Ca-bearing rectorite from Tooho Mine, Japan, by Tsutomu Nishiyama and Susumu Shimoda 236
Calcite
distribution in zeolitic tuffs, Nevada Test Site 385
Calcium
zeolites, hydrothermal synthesis in open systems 171
zeolites, synthetic, XRD, SEM 171
Calibration
long spacings of interstratified minerals with long-spacing organics 67
Carbon dioxide
-saturated water dissolution of phlogopite, kinetics in open system using ion-exchange resin 107
-saturated water dissolution of phlogopite, Mg-, Al-, K-, Si-, Fe-release 101, 107
Carbonic acid (see Carbon dioxide)
CARIATI, F. (with L. ERRE, G. MICERA, P. PIU, and C. GESSA), Water molecules and hydroxyl groups in montmorillonites as studied by near infrared spectroscopy 157
Cathode luminescence
hydrothermal kaolinite, nacrite, dickite, Nayarit, Mexico 451
Cation exchange
chlordimeform on montmorillonite, illite, vermiculite, kaolinite 143
immobilization of Cs from spent nuclear fuel elements by montmorillonite 299
isotherms, phillipsite in Na-Ca, Na-K systems 397
resin, use of, in open-system dissolution of phlogopite 107
selectivity of montmorillonite for $(UO_2)^{2+}$ vs. Na, Ca, K, Mg, Ba 10
uranyl ions in montmorillonite 10
Cation-exchange capacity (CEC)
bottom-sediment clays as a function of time 17
Ca-attapulgite, dehydrated Ca-attapulgite 53
H^+-kaolinite, H^+-montmorillonite, Na^+-montmorillonite, Na^+-hectorite 285
montmorillonite, Aterazawa Mine, Japan 294
Na-montmorillonite, Na-kaolinite, K-illite, Mg-vermiculite 143
phlogopite, Madagascar 101
silica-hectorite intercalation complex 153
smectite-rich soil clays from weathered basalt 277
Cation-exchange reactions of siliceous and aluminous phillipsites, by Yasuhiro Shibue 397
Cation fixation
Cs, by interlayer collapse of montmorillonite after ion exchange 299
U, Cs on clays and shales under hydrothermal conditions 299
Cation selectivity
of montmorillonite for $(UO_2)^{2+}$ vs. Na, Ca, K, Mg, Ba 10
phillipsite, high-, low-silica types 397
CEBULA, D. J. (with R. H. OTTEWILL), Neutron diffraction studies on lithium montmorillonite-water dispersions 73
CEBULA, D. J. (with R. K. THOMAS and J. W. WHITE), Diffusion of water in Li-montmorillonites studied by quasielastic neutron scattering 241
CEC (see Cation-exchange capacity)
Celadonite
adsorption of alkylphosphoric acid on, in decane 285
-alkylphosphoric acid complex, IR 285
Ceramics
meeting announcement, Minerals and Chemicals in Glass and Ceramics—The Next Decade 320
Cesium
fixation in montmorillonite by ion exchange 299
immobilization of, from spent nuclear fuel elements by hydrothermal reaction with shale, clay minerals 299
pollucite formation by hydrothermal reaction of, with shale, clay minerals 299
weeksite formation, by hydrothermal reaction of beta-$Cs_2U_2O_7$ with shale, clay minerals 299
Chemical analysis
allophanes of different SiO_2/Al_2O_3 ratios 124
analcime, clinoptilolite by electron microprobe, Nevada Test Site 385
brines associated with zeolitic tuffs, Teels Marsh, Nevada 341
Ca-bearing rectorite, roseki deposit 236
Cr-dickite, Cr-kaolinite in epithermal sulfide vein, Teslic, Yugoslavia 213
H^+-kaolinite, H^+-montmorillonite, Na^+-hectorite, Na^+-montmorillonite 255
heulandite-group zeolites, analcime, from the Green River Formation 365
high-, low-silica phillipsite 397
hot spring water, Sespe Hot Springs, California 353
illite/smectite in Eocene sandstone, shale 136
illite/smectite in Ordovician K-bentonites 113
kaolinite-, Fe-smectite-rich diabase saprolite 184
laumontite, authigenic, in hot spring deposit 353

https://doi.org/10.1346/CCMN.1981.0290611 Published online by Cambridge University Press

lepidolite, by electron microprobe, Biskupica, Czechoslovakia 81
montmorillonite, Borša, Czechoslovakia; Chambers, Arizona; Zajsanskij, U.S.S.R. 40
Na-montmorillonite, Volclay 10
phillipsite, rhyolitic glass, in playa sediments, Teels Marsh, Nevada 341
phlogopite, Madagascar 101
shales, for reaction with spent nuclear fuel elements 299
trioctahedral smectite, chlorite/smectite from Jurassic black shale 31
uranyl montmorillonite 10
vermiculite, vermiculitic clays, hydrothermal, At lantis II Deep, Red Sea 454
woolly erionite, in mudstone joints in tuffaceous sediments 378
zeolitic tuffs, Nevada Test Site 385

Chemical characteristics and origin of Ordovician K-bentonites along the Cincinnati Arch, by W. D. Huff and A. G. Türkmenoglu 113

Chemical techniques
book review, *Advanced Chemical Methods for Soil and Clay Minerals Research,* edited by J. W. Stucki and W. L. Banwart 319
evaluation of chrysotile by, book review, *Short Course Notes on Mineralogical Techniques of Asbestos Determination,* edited by R. L. Ledoux 459
photolytic oxalate treatment, removal of Fe, Al, Mg 429

Chemical treatment
acid, base dissolution of smectite from basalt-derived soil 277
analyses of acid-, base-dissolved material for octahedral composition of smectite 277
hydrothermal, of smectite to yield illite/smectite 129
phlogopite by CO_2-saturated solution in open, closed systems 101, 107
photolytic oxalate extraction of Al, Fe from Virginia soil clays 429
photolytic oxalate, of Virginia soil clays, effect on basal spacings 429

CHEN, H. S. (with L. R. GARDNER and I. KHEORUENROMNE), Geochemistry and mineralogy of an unusual diabase saprolite near Columbia, South Carolina 184

Chlordimeform
adsorption on montmorillonite, illite, kaolinite, vermiculite 143
-montmorillonite, -illite, -kaolinite, -vermiculite adsorption complexes, XRD, IR 143

Chlorite
hydrothermal reaction with Cs from spent nuclear fuel elements 299
in pores of petroleum reservoir sandstone, SEM 233
/smectite in Jurassic mudstone, black shale, XRD, formation, chemical analysis 31
/smectite, regular (corrensite), XRD, SEM, in petroleum reservoir sandstones 233
/smectite, transformation of trioctahedral smectite by fixation of brucitic layers 31
/smectite, XRD 31, 233

CHOURABI, B. (with J. J. FRIPIAT), Determination of tetrahedral substitutions and interlayer surface heterogeneity from vibrational spectra of ammonium in smectites 260

Chromite
minute grains in Cr-dickite, Cr-kaolinite in epithermal sulfide veins 213

Chromium
-bearing dickite, -bearing kaolinite in epithermal sulfide veins, XRD, IR, chemical analysis 213

Chromium-bearing dickite and chromium-bearing kaolinite from Teslić, Yugoslavia, by Zoran Maksimović, J. L. White, and Mihovil Logar 213

Chrysotile (see also Asbestos, Serpentine)
Al-derivatives, kinetics of oil adsorption, surface area, zeta potential 69
book review, *Short Course Notes on Mineralogical Techniques for Asbestos Determination,* edited by R. L. Ledoux 459
for elimination of used oil emulsions 69
grinding of, in water, hydrocarbons, alcohol 161
ground in water, hydrocarbons, alcohol, IR, XRD, DTA, TGA, surface area, surface charge, SEM, TEM 161
ground in water, hydrocarbons, alcohol, Mg-dissolution kinetics, defiberization 161

CICEL, BLAHOSLAV (with DANIEL MACHAJDIK), Potassium- and ammonium-treated montmorillonites. I. Interstratified structures with ethylene glycol and water 40

CICEL, BLAHOSLAV (with DANIEL MACHAJDIK), Potassium- and ammonium-treated montmorillonites. II. Calculation of characteristic layer charges 47

Clay Minerals Society, The
announcement, 18th annual meeting 160, 240

Clay-organic complexes (see also Organo clays)
alkylammonium-montmorillonite-polystyrene, preparation, electrical properties, IR 294
chlordimeform-montmorillonite, -illite, -kaolinite, -vermiculite, preparation 143
parathion-Ca-attapulgite, preparation 53

Clay-water system
Li-montmorillonite dispersions, neutron diffraction of 73
water diffusion in Li-montmorillonite by quasi-elastic neutron scattering 241
water molecules, OH groups in montmorillonite by near-IR, diffuse reflectance spectroscopy 157

CLEMENCY, C. V. (with F-C. LIN), Dissolution kinetics of phlogopite. I. Closed system 101
CLEMENCY, C. V. (with F-C. LIN), Dissolution kinetics of phlogopite. II. Open system using an ion-exchange resin 107
Clinoptilolite
alteration to analcime in tuffs of Nevada Test Site 385
authigenic, in Green River Formation, formation from volcanic ash 365
authigenic, in tuff of Green River Formation, SEM, chemical analysis, petrography 365
authigenic, in zeolitic tuffs, Nevada Test Site, SEM, petrography, chemical composition 385
formation from volcanic glass, in tuffs of Nevada Test Site 385
-heulandite intermediate, in Green River Formation, formation, chemical analyses 365
in playa lake sediments with phillipsite, Teels Marsh, Nevada 341
kinetics of formation from volcanic glass 331
-rich tuffs, Nevada Test Site, thermal analysis 403
synthesis from volcanic glass under hydrothermal conditions 331
types of zeolitic water in, by TGA, DSC 403
Closed system
dissolution kinetics of phlogopite in 101
saline, alkaline lake, zeolite formation in Green River Formation 365
saline, alkaline lake, zeolite formation, Teels Marsh, Nevada 341
zeolite diagenesis, Nevada Test Site, in closed hydrologic systems 385
Coal
rank vs. degree of burial metamorphism of clays in Mancos Shale 249
Colorado Plateau
burial, contact metamorphism of clays in Mancos Shale 249
coal rank vs. degree of burial metamorphism of clays in Mancos Shale 249
interstratified illite/smectite in Mancos Shale 249
Composition and origin of smectite in soils derived from basalt in Northern Ireland, by D. Curtin and G. W. Smillie 277
CONDRATE, R. A., SR. (with V. LORPRAYOON), Infrared spectra of sulfolane adsorbed on cation-substituted montmorillonites 71
Contact metamorphism
clays in shales, bentonites of Mancos Shale 249
transformation of smectite to illite/smectite during 249
Copper
-montmorillonite, -hydrous oxide-coated montmorillonite, IR of picloram complexes with 191
CORNELL, R. M. (with P. S. SIDHU, R. J. GILKES, A. M. POSNER, and J. P. QUIRK), Dissolution of iron oxides and oxyhydroxides in hydrochloric and perchloric acids 269
Corrensite
in pores of reservoir sandstone, XRD, SEM 233
Crestone (silica cap)
overlying deposit of kaolinite, nacrite, dickite, Nayarit, Mexico 451
Cristobalite
authigenic, formation in zeolitic tuffs, Nevada Test Site 385
authigenic, Nevada Test Site, SEM 385
Crystal growth
Archimedean, equiangular, of halloysite 1
halloysite, by SEM, TEM 1
halloysite, crystal dislocations 1
halloysite, lattice-building mechanisms 1
Crystal size
synthetic Al-goethites, as function of Al content 91
Crystal structure
boehmite, refinement 435
H, OH atomic coordinates in dickite by neutron diffraction 316
H positions, OH orientations in boehmite 435
lepidolite-2M_1, Biskupice, Czechoslovakia, redetermination 81
Li-micas, comparison of structural features 81
CURTIN, D. (with G. W. SMILLIE), Composition and origin of smectite in soils derived from basalt in Northern Ireland 277

Decane
adsorption of alkylphosphoric acid on montmorillonite, hectorite, kaolinite, celadonite in 285
Deep Sea Drilling Project (DSDP)
Site 180, Aleutian Trench, O^{18}/O^{16} ratios, mineralogy of clays at 309
Deep sea sediments
Aleutian Trench, detrital origin 309
mineralogy, O^{18}/O^{16} ratios, D/H ratios of clay fractions 309
Dehydration
near-IR, diffuse reflectance spectroscopy of dehydrated montmorillonites 157
stability of parathion on Ca-treated attapulgite as affected by 53
Dehydroxylation (see also Dehydration)
octahedral occupancy in sepiolite, palygorskite during 226
Density
bulk, variations of SiO_2, Al_2O_3, MgO, H_2O, FeO, Fe_2O_3 with, in diabase saprolite 184

https://doi.org/10.1346/CCMN.1981.0290611 Published online by Cambridge University Press

bulk, variations of XRD properties of kaolinite, smectite with, in diabase saprolite 184
Determination of tetrahedral substitutions and interlayer surface heterogeneity from vibrational spectra of ammonium in smectites, by B. Chourabi and J. J. Fripiat 260
Diabase
saprolite, formation of kaolinite, Al-rich smectite in 184
saprolite, geochemical, mineralogical discontinuities in 184
Diagenesis (see also Authigenesis)
bottom-sediment clays, Auglaize River, Ohio 17
burial, relation of authigenic laumontite to 353
chlorite, illite, corrensite in pores of petroleum reservoir sandstone 233
chlorite/smectite in Jurassic black shale, mudstone 31
illite/smectite in Eocene sandstone, shale 136
vertical zonation, zeolitic tuffs, Nevada Test Site, due to changing pore-water chemistry, increased thermal gradient 385
zeolites in tuffs of Nevada Test Site in closed hydrologic system 385
zeolites, Nevada Test Site, open vs. closed hydrologic systems 385
Diaspore
-goethite solid solution, synthesis, properties, stability 91
DIBBLE, W. E., JR. (with W. A. TILLER), Kinetic model of zeolite paragenesis in tuffaceous sediments 323
Dickite
Cr-bearing, from epithermal sulfide vein, XRD, IR, chemical analysis 213
Fe content, EPR, Mössbauer spectroscopy 23
H, OH atomic coordinates in, by neutron diffraction 316
hydrogen-bond symmetry in, by neutron diffraction 316
hydrothermal, cathode luminescence 451
mid-IR spectra, remote sensing by mid-IR spectroscopy 76
with kaolinite, nacrite, in hydrothermal deposit, Nayarit, Mexico, XRD, SEM 451
Differential scanning calorimetry (DSC)
clinoptilolite-rich tuffs, Nevada Test Site 403
types of zeolitic water by, in clinoptilolite-rich tuffs 403
Differential thermal analysis (DTA)
Ca-bearing rectorite from roseki deposit 236
chrysotile ground in water, hydrocarbons, alcohol 161
clinoptilolite-rich tuffs, Nevada Test Site, by DSC 403
nacrite, hydrothermal deposit, Nayarit, Mexico 451
products of hydrothermal treatment of aluminosilicate gels 446
soil clays from weathered basalt 277
synthetic Al-goethites, as function of Al content 91
vermiculite, hydrothermal, Atlantis II Deep, Red Sea 454
Diffuse reflectance spectroscopy
montmorillonite, water molecules, OH groups in 51
Diffusion
water in montmorillonite by quasielastic neutron scattering 241
water, translational coefficient in montmorillonite 241
Diffusion of water in Li-montmorillonites studied by quasielastic neutron scattering, by D. J. Cebula, R. K. Thomas, and J. W. White 241
