Information for Contributors

The policies and procedures presented here are reproduced in greater detail on the publisher's website: https://www.cambridge.org/core/journals/philosophy-of-science

Submission Method: All submissions must be made through the *Philosophy of Science* Editorial Manager website: https://www.editorialmanager.com/phos. All electronic files should be readable in Microsoft Word or formatted as TeX or LaTeX. (Special restrictions apply to TeX and LaTeX documents; please see the website for details.) Other correspondence with the editorial office may be sent to: journal@philsci.org or *Philosophy of Science*, Department of Philosophy, University of Washington, Box 353350, Seattle, WA 98195, USA.

Manuscripts: Submissions must not exceed 9,000 words, including abstract and footnotes, but not references; a word count must be submitted with each essay. Manuscripts should be submitted in a form suitable for blind review and should include an abstract of approximately 100 words. Authors are strongly encouraged to employ a clear, reader-friendly writing style.

Discursive footnotes (consecutively numbered) should be kept to a minimum. Simple citations can be made in the text, by citing author and year of publication (with page number if necessary); a bibliography should appear on a separate page at the end. A detailed guide to the reference style appears on the website.

Copyright: Manuscripts should be submitted to *Philosophy of Science* with the understanding that upon acceptance for publication an exclusive license to publish will be granted to the Philosophy of Science Association.

Book Reviews: Books intended for review should be sent to the address given above. Persons wishing to review a book should contact the editorial office.

Correspondence concerning PSA business matters should be addressed to Max Cormendy, Executive Director, Philosophy of Science Association, University of Cincinnati, Cincinnati, OH 45221 (e-mail: office@philsci.org). The Philosophy of Science Association website is at http://philsci.org.

Philosophy of Science

Contents

Articles

1 *Are Physiological Individuals Evolutionary Individuals? The Case of the Holobiont*
Arjun Devanesan

21 *Challenging the Consensus: The Strategic Value of Homogeneous Groups in Collective Problem Solving*
Sahar Heydari Fard

46 *Low Prior Probability and Witness Reliability*
Lydia McGrew

65 *Multiple Routes to Progress in Model-Based Economics*
Till Grüne-Yanoff and Caterina Marchionni

83 *Ecology as a Science of Functional Roles*
Annabelle W. Tao

103 *Cooperation, Cognition, and the Elusive Role of Joint Agency*
Stephen M. Downes, Patrick Forber and Joshua Shepherd

123 *Peirce in the Machine: How Mixture of Experts Models Perform Hypothesis Construction*
Bruce Rushing

143 *Decoherence and Probability*
Richard Dawid and Karim P.Y. Thébault

170 *Causal Direction in Causal Bayes Nets*
Reuben Stern and Benjamin Eva

181 *Extrapolating Other Consciousnesses: The Prospects and Limits of Analogical Abduction*
Niccolò Negro and Liad Mudrik

203 *Why the Liberality Criterion Is Dysfunctional for Theories of Ecological Function*
Colby J. Clark

Discussion Notes

221 *Pain Asymbolia Is Probably Still Pain*
Alexandre Duval and Colin Klein

230 *Defending "Distinctively Mathematical" Scientific Explanations*
Marc Lange

Book Reviews

238 Review of H. K. Andersen and Sandra D. Mitchell's *The Pragmatist Challenge: Pragmatist Metaphysics for Philosophy of Science*
Sharon Crasnow

242 Review of Roberta L. Millstein's *The Land Is Our Community*
Soazig Le Bihan
