Justice Without Law?

JEROLD S. AUERBACH

"Five hundred years from now," writes Jerold Auerbach, "when historians sift through twentieth-century artifacts, they doubtlessly will have as little comprehension of American legal piety as most Americans now display toward medieval religious zeal. The analogy is illuminating: the courtroom is our cathedral, where contemporary passion plays are enacted."

Why *are* Americans the most legalistic and litigious people in the world? What does that say about our values, our ideals, the quality of our social relationships? What are the benefits to our society? And what is the price we pay?

These are among the questions that Auerbach considers in *Justice Without Law?*, the first history of dispute settlement in the United States. Auerbach explores the variety of alternatives to litigation that have existed throughout our history—within religious, utopian, ethnic, and even business communities. He shows that justice without law was a living reality for many groups of Americans during three centuries of our history. Their choice of alternatives represented radically different social values from those that most Americans now cherish. We see how litigation came to express the aggressive competition, individualism, and materialism that American society esteems. But we also learn what is lost: the sense of community coherence and sharing that alternatives to litigation express.

Jerold S. Auerbach is Professor of History at Wellesley College, Visiting Scholar at the Harvard Law School, and author of the highly acclaimed *Unequal Justice*.

$16.95 , 224 pp., 6 x 9

Early Comments:

"This lively and penetrating exploration illuminates the complex relationship between law and community... It recaptures for us many lost and hidden aspects of our legal experience and it provides an invaluable historical vantage for understanding current proposals for alternatives to law."

—Marc Galanter
University of Wisconsin

"Americans have been spending much thought and money lately in a search for efficient ways to resolve disputes without having to rely on their expensive and cumbersome legal institutions. Professor Auerbach says it won't work.... In the same lucid and comprehensive prose Professor Auerbach displayed in *Unequal Justice,* he argues that the solution is not to find justice outside the law, but to accept the law and then try to change it from inside. This is a very important book because it suggests that otherwise well-intentioned people are trying to solve the right problem in the wrong way."

—Stephen Gillers

The "crisis" in our courts has been misdiagnosed.

Criminal justice reforms usually fail, argues Malcolm Feeley, because they are based on false assumptions. His eye-opening book shows, for example, why less crowded court calendars do not bring speedier trials, and why harsher sentences do not cause the crime rate to drop.

"At last ... a sophisticated but easily understood analysis of what can and should be done.... What a welcome relief from the demagoguery that permeates most public discussion of the problem." —*Jack B. Weinstein, Federal Judge, Eastern District of New York*

Max Weber

Anthony T. Kronman. Max Weber's classic essay "Sociology of Law," a chapter in his *Economy and Society,* has long been criticized for the density of its prose, the forbiddingly wide range of its coverage, and its lack of polish and organizational unity. This book not only demonstrates that the essay has more unity and coherence than its critics claim, but relates it clearly to other branches of Weber's general theory of society—notably those dealing with authority, religion, and economic action. The result is a new interpretation of the whole of Weber's sociology from the perspective of his sociology of law. The third volume in the series JURISTS: PROFILES IN LEGAL THEORY. $18.50

The Invisible Justice System: Discretion and the Law

New Second Edition

Edited by Burton M. Atkins & Mark R. Pogrebin

Discretionary decision-making in our legal system is the focal point of this special topic reader. The selected articles have been written by noted authorities in the fields of political science, sociology, public administration, law and criminology. Together they comprise a comprehensive, interdisciplinary approach to the issue of discretionary decision-making and the law.

195 pages/softcover/$11.95

Reaffirming Rehabilitation

By Francis T. Cullen & Karen E. Gilbert

A look at the "other side" of the justice model controversy revealing the importance of reaffirming the rehabilitative ideal within American corrections. Includes a discussion of the current determinate sentencing movement and explores reasons behind the disenchantment with rehabilitation in the past. Foreword by Donald R. Cressey.

Law & Society Review

BASIC STYLE SHEET

All manuscripts should be typed double spaced on one side only. Rejected manuscripts cannot ordinarily be returned. While manuscripts need not conform to this style sheet at the time of submission, all manuscripts must include footnotes and a list of references, and all accepted manuscripts must be revised by the author to conform to the style of the *Review*. *The rules listed below supplement the manuscript information on the inside front cover of the* Review. Authors are urged to consult recent issues of this journal for further illustrations. A more detailed style sheet is available from the editorial office.

1. CITATIONS: All notes that consist merely of supporting citations should be placed in parentheses in the text. They should follow the statement they support and be in the following style:

(last name of author, year: page number or numbers to which you refer, if any)

EXAMPLE: . . . the opposition in Paris (Rudé, 1967: 167).

2. FOOTNOTES: All footnotes should be numbered sequentially and placed immediately after the text. They should contain only substantive comments and additional references not immediately relevant to the text.

3. REFERENCES: References are to be placed at the end of the manuscript. For more than one publication by the same author, list them in chronological order beginning with the oldest. For more than one publication in one year by the same author, use small letters to distinguish them (e.g., 1970a; 1970b).

a. BOOKS: LAST NAME, First name (year) *Title of book*. City: Publisher.

EXAMPLE: ARNOLD, Thurman W. (1935) *The Symbols of Government*. New York: Harcourt, Brace and World.

b. ARTICLES: LAST NAME, First name (year) "Title of article," volume number *Journal* initial page of article (month and day only if each issue is separately paginated).

EXAMPLE: STERN, Curt (1970) "The Continuity of Genetics," 99 *Daedalus* 882.

4. TABLES AND FIGURES: Tables should approximate the appearance of printed tables. Figures should be camera ready. Tables and/or figures should be placed at the end of the text, after footnotes and references. Their location within the text should be indicated as follows:

Table 1 about here

5. ABSTRACTS: All articles should include an abstract of between 50 and 100 words.
