As the world's leading manufacturer of sharps products, Becton Dickinson is committed to helping make today's healthcare workplace safer. Developing products that comply with current regulations and setting new safety standards is a large part of that commitment, but an equally important factor is promoting correct and conscientious usage of all sharps products. As a step toward accomplishing this goal, Becton Dickinson VACUTAINER Systems is now including special safety messages on VACUTAINER Brand Needle packaging as an extra reminder to "handle with care."

Promoting adherence to recommended precautions is one important way to prevent **dangerous** needlestick injuries and exposure to hazardous biologic specimens-and we at Becton Dickinson VACUTAINER Systems take this responsibility seriously.

For detailed information **on all** of our safety products contact your Becton Dickinson VACUTAINER Systems Sales Representative.

DESIGN · USE · DISPOSAL
FOCUS ON SAFETY

Techni-Care™ Surgical Scrub

99.99% Bacterial Reduction in only 30 seconds

Techni-Care...A new technology in a surgical scrub exhibits outstanding antimicrobial efficacy *without* dermal irritation.

Fully substantiated by independent testing in vivo and in vitro, Techni-Care Surgical Scrub both disinfects and conditions *in less time than any prior technology available to healthcare personnel.*

Results of Time Kill tests demonstrate that Techni-Care eliminates gram negative and gram positive bacteria at 99.99% in 30 second contact.

Outstanding Bactericidal Activity without skin irritation

Techni-Care's active ingredient, chloroxylenol (PCMX) at 3%, eliminates bacteria, while a host of skin conditioning agents work synergistically to condition and soften the skin. Exceptionally mild, Techni-Care's dermal conditioning ingredients, include cocamidopropyl PG-Dimonium Chloride Phosphate, Aloe Vera Gel, Collagen and Propylene Glycol.

Techni-Care has rated a "minimal irritation" in the Draize Dermal irritation test. Specially blended formulation for dermal conditioning, as well as for bacterial reduction. Techni-Care Surgical Scrub is soothing to dermal tissue while phospolipids promote natural turgor.
