HENDRIX GENETICS

FOUNDERS OF FUTURE GENERATIONS

Hendrix Genetics is a global multi-species animal genetics company investing in technology, people and progress to deliver sustainable value to business partners, employees and society.

Hendrix Genetics has 4 divisions: ISA, the layer breeding division; Hybrid the turkey breeding division; Hypor the pig breeding division and SFPA, the poultry distribution division. Hendrix Genetics Research & Technology Centre supports the breeding divisions of the company with up to date expertise and technologies that are shared between the genetic selection programs of the various species.

Hendrix Genetics has around 1000 employees with a further 500 working in joint ventures. This Hendrix Genetics team combines 50 fully or partially owned companies in 22 countries around the world.

# Managing Perfection

## Improve the quality of your hatching eggs

The hatching egg that has just been produced is perfect. But how do you make sure that this hatching egg stays perfect? That it is not too warm, that it stays clean and without cracks? In short, how do you manage the perfection of your hatching eggs? Ask Vencomatic. As the marketleader in managing perfection of hatching eggs they know how.

Call us for an appointment: +31 (0)497 – 517380

PETERSIME
INCUBATORS & HATCHERIES

# S-line

## Single-stage incubators for maximum economic return

Designed to maximize your profit for life

- High chick output
- High uniformity
- Low labour, maintenance and energy costs
- Future proof

The solution for all your needs in terms of capacity, features and expandability.

Two product ranges:

### AirStreamerPlus™

Standard model offering all essential functionalities and features of a modern single-stage incubator.

### BioStreamer™

Top-of-the-range product adding an advanced user interface and autopilot functions based on Embryo-Response Incubation™ technology.

# Add maximum value

# to your process

Our company, a worldwide supplier of poultry processing systems, has the process knowledge and extended sales and service organization to equip and support you, adding maximum value to your process.

Working continuously on innovative technology, we are able to provide solutions for poultry lines up to 12,000 bph and systems to create the desired end products and packing.

We offer solutions for:

- Live bird supply
- Slaughtering, scalding and evisceration
- Chilling
- Cut-up and deboning
- X-ray bone detection
- Portioning and slicing
- Weighing, grading and batching
- Weigh price labeling
- Production control software
- Further processing

Nobilis® a *trusted* name in poultry vaccines

Infectious diseases can have a dramatic negative effect on flock performance and profitability. For decades Intervet has been a trusted partner in poultry production, delivering safe, effective and innovative disease solutions.

The Nobilis range of live and inactivated vaccines protects against a wide range of viral and bacterial diseases.

Vaccines such as Nobilis E.coli, Nobilis Salenvac T and Nobilis IB 4/91 have revolutionised poultry health worldwide, making the industry less vulnerable to risk whilst safeguarding profitability.

Intervet's continued commitment to research guarantees future vaccine development, which will protect your assets against the challenges of current and future disease threats.

TOTAL NUTRITION

FEEDING ANIMALS FOR HEALTH AND GROWTH

TOTAL NUTRITION®
feeding animals for health and growth

Kemin's TOTAL **NUTRITION** programme helps the animal feed industry dealing with the challenges it is facing today

TOTAL **NUTRITION** considers both the nutrient levels in the feed and the nutricines in order to achieve good growth performance by healthy animals in a profitable way.

This yields safe food products and reduces environmental impact.

**Call your Kemin representative to learn more about the advantages of TOTAL NUTRITION or visit www.kemin.com**
