Pagination Problems in New Textbook

If you ordered the second edition of Dr. Richard Wenzel's text *Prevention* and *Control of Nosocomial Infections* prior to publication and received your book in January 1993, you may wish to check your copy. The publisher shipped a number of volumes before discovering that some had pages missing or out of order, particularly within the first 128 pages.

If you find that your book is defective, you may phone Williams and Wilkins's customer service department at 1-800-638-0672 to arrange for replacement. If you have not yet ordered Dr. Wenzel's book, you may do so at the same phone number.

A review of Dr. Wenzel's text will appear in a future issue of *Infection Control and Hospital Epidemiology.*
