Clays and Clay Minerals, Vol. 33, No. 2, 160, 1985.

OUTSTANDING EDITOR AWARD

At its annual meeting in Buffalo, New York, October 1, 1984, the Council of The Clay Minerals Society, with the support of W. D. Keller and D. R. Pevear, directed its president, Wayne F. Hower, to express the Society's appreciation to Dr. Ada Swineford for her work as Editor of the Proceedings Volumes of the 2nd through 10th National Clays and Clay Minerals Conferences (1954–1963) while she was with the Kansas Geological Survey. At President Hower's direction, a plaque was prepared and a presentation ceremony was organized at the Meadowlark Hills retirement home in Manhattan, Kansas, by Mrs. Grace Muilenberg, a long-time friend of Dr. Swineford, and Dr. J. R. Underwood, chairman of the Department of Geology, Kansas State University, where Dr. Swineford served as Adjunct Professor of Geology after her retirement from Western Washington State University in 1977.

The plaque, inscribed "ADA SWINEFORD, OUTSTANDING EDITOR, CLAYS AND CLAY MINERALS," was presented to Dr. Swineford by P. C. Franks who expressed the thoughts of the Society by conveying to her the words of its president, "Your careful and conscientious editorial effort helped pave the way to our current journal. It was also a major factor in making the Society viable during those early years (of) our history. (The Society) hopes that the . . . medallion will be a token and reminder of the respect and appreciation that (it) has for your important contributions . . ."

ERRATUM

The Hycast VC, Hymod KC, AT, and Hywite Alum designations reported in Churchman *et al.* (1984) and Theng *et al.* (1984) were erroneously referred to as trade names of Imperial Chemical Industries. They are in fact trade names of ECC International, Ltd. We regret this error.

G. J. CHURCHMAN
J. S. WHITTON
G. G. C. CLARIDGE
B. K. G. THENG
