CORRIGENDUM

Tables 8, 9, 10, and 11 in Baltagi's "Worldwide Institutional and Individual Rankings in Econometrics over the Period 1989–1999: An Update" (2003, *Econometric Theory* 19, 165–224) were based on impact factor conversions multiplied by the actual pages in each journal. These should have been multiplied by the standardized pages, with *Econometrica* having a standardized page of one. The impact factors were additionally divided by 2.072 to make the impact factor for *Econometrica* equal to one. The corrected tables are given here.
