THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

Membership

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types http://www.rin.org.uk/general.aspx?ID=59) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

(1) Ordinary Membership
(2) Associate Membership
(3) Associate Fellow Membership
(4) Student Membership
(5) Junior Associate Membership
(6) Corporate Membership
(7) Small Business Membership
(8) Affiliate College University Membership
(9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to The *Journal* (ISSN 0373–4633) for Volume 79, 2026, which includes print and electronic access, is £1024 (USA, Canada and Mexico US $1846) and includes delivery by air; single parts are available at £206 (USA, Canada and Mexico US $370) plus postage. The electronic-only price available to institutional subscribers is £540 (USA, Canada and Mexico US $987). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8EA, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

For EU product safety concerns, contact us at Calle de José Abascal, 56, 1°, 28003 Madrid, Spain, or email eugpsr@cambridge.org.

THE JOURNAL OF NAVIGATION

VOLUME 79 • NUMBER 3-4 • MAY 2026

CONTENTS

Gauss' method of celestial navigation 131
António Costa Canas and Teresa Sousa

Exploring adjustments and improvement approaches for marine safety investigators qualifications 142
Hui Huang Tai and Tun Hao Hsu

Learning from failure by using a hybrid model technique: the Suez Canal incident 166
Trackeisha Davis, Ashraf Labib, Azzam Saati, Akilu Yunusa-Kaltungo and Claudiu Herteliu

GNSS spoofing detection via multilayer auto-switcher comparator of combined power and distortion metrics 187
Haiying Liu, Moses Michael Meitivyeki, Tiexiang Li and Xiaolin Meng

Systemic usability failures in ECDIS: a Swiss cheese analysis of the *Kaami* accident 209
Thomas Porathe, Erik Styhr Petersen and Margareta Holtensdotter Lützhöft

An outlier-resilient GPS navigation filter based on centred error entropy for suppressing non-Gaussian interference 227
Dah-Jing Jwo, Yi Chang and Bo-Yang Lee

Evaluating the impact of high-fidelity simulators on maritime education and training: enhancing competency through realistic simulation – CORRIGENDUM 258
Fernando Crestelo Moreno, Luis Alfonso Díaz-Secades, Jesús Ángel García Maza and Antonio Lista Martin
