The Brussels Bubble

What happens when European politics goes digital? Behind the scenes in European Union institutions, a quiet transformation is reshaping the way power works. Based on long-term ethnographic research, this book follows diplomats, civil servants, spokespersons and interpreters through the corridors, meeting rooms, cafés and smartphone screens of Brussels' European Quarter. Against the backdrop of Brexit, the COVID-19 pandemic and Russia's war on Ukraine, it reveals how digital technologies have become inseparable from the practice of international politics – reshaping trust, tact and authority in unexpected ways. Far from a tale of technological revolution, *The Brussels Bubble* exposes digitalisation as a messy, human negotiation about what diplomacy and Europe itself mean today. Combining vivid narrative with sharp theoretical insight, it offers a rare, inside view of how global governance, technology and human interaction intertwine at the heart of European power. This title is also available as Open Access on Cambridge Core.
