This review was published with an error in the third paragraph. The author corrected the sentence:

> "Although the reliability of all these sites is justified, the dates raise new questions and the extraordinary diffusion of these findings in the media has reinforced the wrong idea that there is solid evidence for a pre-late Glacial Maximum peopling"

to read:

> "Although the reliability of all these sites **has been questioned,** the extraordinary diffusion of these findings in the media has reinforced the wrong idea that there is solid evidence for a pre-late Glacial Maximum peopling."
