EPIDEMIOLOGIST
INFECTION CONTROL

We are seeking an experienced Infection Control Practitioner with a minimum of 3 years' experience. Pediatric experience is preferred, but not necessary. Nursing or Medical Technology preparation is acceptable.

Please send your resume to: Doreen McGaff, Human Resources, 300 Longwood Avenue, Boston, MA 02115. Children's Hospital is committed to cultural diversity in the workplace.

Children's Hospital • Boston

Infection Control Coordinator

We Take Great Care...

. . .in everything we do. From providing quality patient care, to caring about the talented individuals that we hire for our team, Central Maine Medical Center is an outstanding place to apply your professional skills and be recognized for your true value.

In this capacity you will utilize your strong verbal and written communication skills as you perform a wide range of coordinating and educating functions for our sophisticated, state-of-the-art infection control program. You possess knowledge of microbiology, epidemiology and statistics in addition to 2-3 years' clinical supervisory experience and a minimum of 2 years' in a hospital-based infection control environment. Designation as CIC, or eligible to take the examination, plus R.N. with current Maine license or eligibility is essential.

Our employment opportunities include an attractive and competitive compensation package (including flexible benefits) and a supportive, progressive and team-oriented environment.

Interested individuals are encouraged to call Deborah Whitworth, Recruiter, at 1-800-445-7431, or send their resume to her attention at: Central Maine Medical Center, P.O. Box 4500, Lewiston, ME 04240-4500. An EOE.

Techni-Care™ Surgical Scrub

99.99% Bacterial Reduction in only 30 seconds

Techni-Care...A new technology in a surgical scrub exhibits outstanding antimicrobial efficacy *without* dermal irritation.

Fully substantiated by independent testing in vivo and in vitro, Techni-Care Surgical Scrub both disinfects and conditions *in less time than any prior technology available to healthcare personnel.*

Results of Time Kill tests demonstrate that Techni-Care eliminates gram negative and gram positive bacteria at 99.99% in 30 second contact.

Outstanding Bactericidal Activity without skin irritation

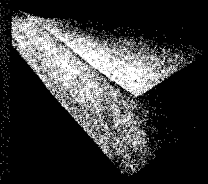

Techni-Care's active ingredient, chloroxylenol (PCMX) at 3%, eliminates bacteria, while a host of skin conditioning agents work synergistically to condition and soften the skin. Exceptionally mild, Techni-Care's dermal conditioning ingredients, include cocamidopropyl PG-Dimonium Chloride Phosphate, Aloe Vera Gel, Collagen and Propylene Glycol.

Techni-Care has rated a "minimal irritation" in the Draize Dermal irritation test. Specially blended formulation for dermal conditioning, as well as for bacterial reduction. Techni-Care Surgical Scrub is soothing to dermal tissue while phospolipids promote natural turgor.
