BIBLIOGRAPHY
Publications on financial history

SERGE NOIRET
European University Institute, Florence

This bibliography covers publications that appeared during 2001 and during the year 2000 when they were not known before the deadline of last year's bibliography. In that case, the year of publication is mentioned in the citation.

It follows previous criteria being divided into two broad areas: *general literature in financial history* in section 1, and *specialised material* in section 2. Section 2 is then subdivided chronologically, and further by geographical area (the complete classification scheme was published in Volume 1, Part 2, October 1994, pp. 157–160). Where there are no entries for a particular section, the heading has been omitted. Abbreviations have been kept to a minimum, but standard abbreviations such as *J.* for *Journal*, *Q.* for *Quarterly*, *Rev.* for *Review/Revue*, have been used throughout. Short titles and cited titles (cit.), are used for references to edited volumes within the section in which they are listed; elsewhere they are cited in full. Doctoral theses and working papers are not included. Articles published in books 'edited by' are mentioned only if the bibliographer accessed the index of the book before the publication deadline. Translations in English for some European, Asian and African languages are used in the bibliography only when the source of the bibliographic citation made it available. All URLs for web-site citations were accessed in June–July 2003.

The bibliographer is pleased to receive suggestions of any kind via e-mail at the following address: <serge.noiret@iue.it>.

GENERAL

Bibliographies

Boyns, T. and Nikitin, M., 'Introduction to recent research in accounting, business and management history by French authors', in *Accounting, Business and Financial History*, 11.1, pp. 1–6.
