the life of science

The Measure of the World

A Novel

Denis Guedj

Translated by Arthur Goldhammer

"*The Measure of the World* is a fascinating story of two French scientists at work in the midst of the Revolution surveying distances between landmarks to establish the length of the standard meter." —Henry Petroski, author of Remaking the World

Cloth $27.00

Of the Plurality of Worlds

A facsimile of the first edition of 1853; plus previously unpublished material excised by the author just before the book went to press; and Whewell's dialogue rebutting his critics, reprinted from the second edition

William Whewell

Edited by Michael Ruse

Is there intelligent life on other worlds? William Whewell, one of the most influential British intellectuals of the nineteenth century, weighed in on this question in the negative, igniting a bitter Victorian debate on science and religion.

Paper $20.00
