You May Not Realize The Scope Of The Problem.

When it comes to processing endoscopes, the inside is just as important as the outside.

Biopsy channel section after repeated processing in glutaraldehyde.

Same channel after 5 STERIS PROCESS™ cycles.

You can't see the inside of your scope after processing. What remains inside may surprise you.

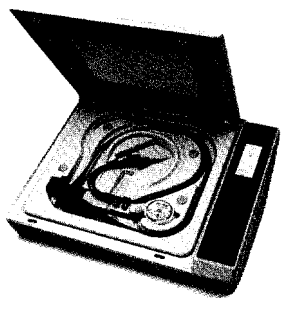

Glutaraldehyde cross-links proteins. Organic residues can be affixed to surfaces, potentially leading to contaminated channels and/or reduced optical clarity.

Conversely, the STERIS PROCESS uses STERIS 20™ – a patented formulation of peracetic acid (a strong oxidizer and biocide), detergents, buffers, and anti-corrosives. This formulation, along with the directed flow of the STERIS SYSTEM 1® Processor, makes the STERIS PROCESS effective at reaching contaminated surfaces without promoting organic buildup.

Write or call us today to find out why thousands of health professionals use the proven, rapid, and safe sterile processing of STERIS SYSTEM 1®.

Techni-Care™ Surgical Scrub

99.99% Bacterial Reduction in only 30 seconds

Techni-Care...A new technology in a surgical scrub exhibits outstanding antimicrobial efficacy *without* dermal irritation.

Fully substantiated by independent testing in vivo and in vitro, Techni-Care Surgical Scrub both disinfects and conditions *in less time than any prior technology available to healthcare personnel.*

Results of Time Kill tests demonstrate that Techni-Care eliminates gram negative and gram positive bacteria at 99.99% in 30 second contact.

Outstanding Bactericidal Activity without skin irritation

Techni-Care's active ingredient, chloroxylenol (PCMX) at 3%, eliminates bacteria, while a host of skin conditioning agents work synergistically to condition and soften the skin. Exceptionally mild, Techni-Care's dermal conditioning ingredients, include cocamidopropyl PG-Dimonium Chloride Phosphate, Aloe Vera Gel, Collagen and Propylene Glycol.

Techni-Care has rated a "minimal irritation" in the Draize Dermal irritation test. Specially blended formulation for dermal conditioning, as well as for bacterial reduction. Techni-Care Surgical Scrub is soothing to dermal tissue while phospolipids promote natural turgor.

SHEA
Annual Luncheon

TUESDAY, OCTOBER 19, 1993

12:00 – 2:00 PM

NEW ORLEANS HILTON RIVERSIDE AND TOWERS
NEW ORLEANS, LA

The Society for Hospital Epidemiology of America will host its Annual Luncheon during the Interscience Conference on Antimicrobial Agents and Chemotherapy (ICAAC) at the New Orleans Hilton.

FEATURED LUNCHEON SPEAKER

Michael T. Osterholm, Ph.D. M.P.H.

State Epidemiologist & Chief, Minnesota Department of Health

Topic: Partners and Pump Handles

COST: **$40**

No advanced reservations will be accepted after October **5, 1993**

Limited number of tickets available on site -Reserve Now!

Registration Form
