The Oberwolfach Meeting on Combinatorics, Probability and Computing

This special issue is devoted to papers from the meeting on *Combinatorics, Probability and Computing*, held at the Mathematisches Forschungsinstitut in Oberwolfach from the 23rd to the 29th of September 2001. As is typical of meetings at Oberwolfach, this was an exciting and stimulating conference; there was a large number of excellent talks, many of which provoked a great deal of interest and discussion among the participants.

We are delighted to be able to publish this collection of papers in *Combinatorics, Probability and Computing*, and we thank all the authors and the referees for their prompt co-operation at all stages of the process.

Béla Bollobás and Ingo Wegener
