Clays and Clay Minerals, Vol. 33, No. 6, 577–600, 1985.

COMPREHENSIVE SUBJECT, AUTHOR, TITLE INDEX[1] VOLUME 33, 1985

F. A. MUMPTON

A

ABUDELGAWAD, G. (with B. E. VIANI and J. B. DIXON), Palygorskite Separation from Dodecylammonium-treated Clays 438

Acid
- dissolution, of pyrophyllite-rich mixtures 563

ADAMS, J. M. (with C. BREEN and C. RIEKEL), Review of the Diffusion of Water and Pyridine in the Interlayer Space of Montmorillonite: Relevance to Kinetics of Catalytic Reactions in Clays 275

ADAMS, J. M (with T. V. CLAPP), Infrared Studies of 1-Hexane Adsorbed onto Cr^{3+}-exchanged Montmorillonite 15

Adsorption (see also Sorption)
- alcohols on alkylammonium montmorillonite 350
- aliphatic amines on montmorillonite 301
- boron on kaolinite, effect of ion-pair formation 433
- Cu on gibbsite, boehmite, influence of glycine on 397
- Cu on hydroxy-Al-montmorillonite, effect on gibbsite precipitation 468
- dimethylanilines on montmorillonite, silica, in HPLC 285
- EGME on montmorillonite, soil clay, to determine specific surface area 391
- interlamellar aggregation of alcohols adsorbed on alkylammonium montmorillonite 350
- 1-hexane on Cr-montmorillonite, protonation, hydrogen bond formation 15
- 1-hexane on Cr-montmorillonite, IR 15
- organic pollutants on amine-treated montmorillonite 301
- organic pollutants, enhancement of, by reaction of aliphatic amines and montmorillonite 301
- organophosphate esters on smectite 62
- parathion, on smectite, XRD, stability 62
- phenols, vapor-phase, by smectite in air, nitrogen 123
- sorption of transition metals on suspension of smectite-hydrous manganese dioxide 118
- sugars on ferrihydrite, goethite, hematite 219
- tetramethyl benzidine on hectorite 510

Adsorption of Dimethylanilines on Montmorillonite in High-Pressure Liquid Chromatography, by U. Mingelgrin and F. Tsvetkov 285

Adsorption of n-Aliphatic Alcohols from Dilute Aqueous Solutions on RNH_3-Montmorillonites. III. Interlayer Aggregation of the Adsorbate, by M. S. Stul and J. De Bock 350

AEM (see Analytical electron microscopy)

AHN, J. H. (with D. R. PEACOR), Transmission Electron Microscopic Study of Diagenetic Chlorite in Gulf Coast Argillaceious Sediments 228

AIPEA
- 1985 International Clay Conference, announcement 80

Air
- vapor-phase sorption, polymerization of phenols in, by smectite 123

ALBERTI, A. (with M. F. BRIGATTI), Crystal Chemical Differences in Al-rich Smectites as Shown by Multivariate Analysis of Variance and Discriminant Analysis 546

Alcohol
- adsorption on aklylammonium montmorillonite 350
- aggregation of, in interlamellar space of alkylammonium montmorillonite 350

Alkene
- adsorbed on Cr-montmorillonite, protonation, IR 15
- adsorption on Cr-montmorillonite 15

Alkylammonium
- -montmorillonite, interlamellar aggregation of alcohols 350
- -montmorillonite, XRD, alcohol adsorption 350

Allegra's mixing function
- random, ordered stacking in halloysite/dehydrated halloysite 261

Allophane
- formation in absence, presence of citric acid 312
- HRTEM, particle size, morphology 345
- morphology 237, 345
- SEM 161
- size distribution of unit particles, by small-angle neutron scattering 345
- small-angle X-ray scattering, effect of heating 237
- small-angle neutron scattering 345
- structure, morphology, effect of heating 237
- XRD, TEM, IR 312

ALPEROVITCH, N. (with I. SHAINBERG, R. KEREN, and M. J. SINGER), Effect of Clay Mineralogy and Aluminum and Iron Oxides on the Hydraulic Conductivity of Clay-Sand Mixtures 443

Alteration

bauxite, during resilification 517
mica, oxygen isotope changes during 214
palygorskite, sepiolite to smectite, analcime, noncrystalline materials, under alkaline conditions 44
petrified wood, by wetting-drying 525
plagioclase, K-feldspar to kaolinite, gibbsite, halloysite, in lateritic saprolite 31
Aluminum
bauxite, Mn-bearing, mineralogy, SEM, chemical analyses, XRD 532
boehmite enrichment zone, in resilicified bauxite 517
boehmite, structural refinement 71
hydroxides, oxyhydroxides, formation in presence of organic, inorganic acids 181
hydroxy-Al-montmorillonite, precipitation of gibbsite in 468
migration of, in resilicified bauxite 517
oxide, effect of, on hydraulic conductivity of clay-sand mixtures 443
-rich goethite, in Mn-bearing bauxite, SEM 532
-rich smectites, distinction among, by statistical treatment of chemical analyses 546
Amine
aliphatic, adsorption on montmorillonite 301
-treated montmorillonite, adsorption of organic pollutants on 301
-treated montmorillonite, basal spacings of, effect of adsorption of organic pollutants on 301
AMOURIC, M. (with C. PARRON), Structure and Growth Mechanism of Glauconite as Seen by High-Resolution Transmission Electron Microscopy 473
Analcime
alteration product of NaOH treatment of sepiolite, palygorskite 94
in altered basalt, chemical analysis 135
in altered basalt, formation by action of meteoric water, during submarine hydrothermal event 135
-rich tuff, Cs cation-exchange properties 145
Analytical electron microscopy (AEM)
chlorite, diagenetic, in argillaceous sediments 228
illite/chlorite interstratification 463
smectite-hydrous manganese dioxide suspensions 118
ANAND, R. R. (with R. J. GILKES, T. M. ARMITAGE, and J. W. HILLYER), Feldspar Weathering in Lateritic Saprolite 31
Announcement
1985 International Clay Conference 80
Apophyllite
in altered basalt, chemical analysis 135
in altered basalt, formation by action of meteoric water, during submarine hydrothermal event 135
Apparent Long Spacings from Clay-Water Gels, Glasses, and Crystalline Materials Due to Total Reflectance of X-rays: A Comment, by S. J. van der Gaast and J. H. F. Jansen 471
Apparent Long Spacings from Clay-Water Gels, Glasses, and Crystalline Materials Due to Total Reflectance of X-rays: Reply to Comment, by T. C. Simonton 472
ARMITAGE, T. M. (with R. R. ANAND, R. J. GILKES, and J. W. HILLYER), Feldspar Weathering in Lateritic Saprolite 31
Attapulgite (see Palygorskite)

B

BAILEY, S. W. (with A. C. RULE), Refinement of the Crystal Structure of Phengite-2M_1 403
BAILEY, S. W. (with C. LIN), Structural Data for Sudoite 410
BÁRDOSSY, GY. (with A. CSORDÁS-TOTH and A. KLUG), Scanning Electron Microscopic and X-ray Powder Diffraction Study of Manganiferous Bauxite, Kincsebánya, Hungary 532
Basal spacings
amine-treated montmorillonite, effect of organic pollutant adsorption 301
metakaolinite, rehydration products of 1
pillared hydroxy-Al, Cr-, La-montmorillonite, effect of heat treatment 89
pillared hydroxy-Al, fluorinated-NH_4-montmorillonite, effect of heat treatment 89
Basalt
chemical, isotope analysis 135
glass, alteration to zeolites, smectite, during submarine hydrothermal event 135
glass, alteration to zeolites, smectite, by meteoric water 135
glass, zeolites from, chemical analysis of 135
BAUMANN, E. R. (with T. A. WOLFE and T. DEMIREL), Interaction of Aliphatic Amines with Montmorillonites to Enhance Adsorption of Organic Pollutants 301
Bauxite
Mn-bearing, chemical analyses, mineralogy, SEM, genesis 532
Mn-bearing, lithiophorite in, SEM 532
resilicified, XRD, chemical analyses, genesis 517
resilcified, zones of kaolinite, boehmite, migration of Al, Si in 517
Bayerite
IR, TEM, XRD 181
formation in presence of organic, inorganic ligands 181
Beidellite
distinction from montmorillonite by statistical treatment of chemical analyses 546
Bentonite (see also Montmorillonite, Smectite)
adsorption of dimethylaniline on, during HPLC 285

https://doi.org/10.1346/CCMN.1986.0330618 Published online by Cambridge University Press

amine-treated, adsorption of organic pollutants 301
amine-treated, basal spacings of, effect of adsorbed organic pollutants 301
CEC 301
spherical particles, preparation, TEM, SEM, thermal treatment 285
Benzidine
hectorite complexes, color, UV-VIS, IR, ESR 510
tetramethyl, adsorption on hectorite 510
BERGAYA, F. (with M. F. BRIGATTI and J. J. FRIPIAT), Contribution of Infrared Spectroscopy to the Study of Corrensite 458
Berthierine
intercalated in chlorite, HRTEM, AEM 228
Biotite
Fe oxidized, oxygen isotope content 214
K-depleted, oxygen isotope content 214
oxygen isotope content 214
BIRGE, R. R. (with C. J. JOHNSTON and G. SPOSITO), Raman Spectroscopic Study of Kaolinite in Aqueous Suspension 483
Birnessite
smectite dispersion, transition metal sorption in 118
Boehmite
Cu adsorption on, ESR 397
Cu adsorption on, influence of glycine 397
deuterated, crystal structure refinement 71
deuterated, hydrogen positions in, unit-cell parameters 71
deuterated, neutron diffraction 71
-enrichment zone, in resilicified bauxite 517
genesis in resilicified bauxite 517
orientation of Cu complexes on 397
synthesis, hydrothermal 200
zones in resilicified bauxite 517
BOLT, G. H. (with H. VAN OLPHEN), book review, *The Surface Chemistry of Soils,* by G. Sposito 367
Book review
Micas, Reviews in Mineralogy, Vol. 13, edited by S. W. Bailey 367
Surface Chemistry of Soils, The, by Garrison Sposito 367
Boron
adsorption on kaolinite, effect of ion-pair formation 433
ion speciation, adsorption on kaolinite 433
BREEN, C. (with J. M. ADAMS and C. RIEKEL), Review of the Diffusion of Water and Pyridine in the Interlayer Space of Montmorillonite: Relevance to Kinetics of Catalytic Reactions in Clays 275
BRIDSON, D (with T. W. DAVIES and D. P. HARRISON), Properties of Flash-Calcined Kaolinite 258
BRIGATTI, M. F. (with A. ALBERTI), Crystal Chemical Differences in Al-rich Smectites as Shown by Multivariate Analysis of Variance and Discriminant Analysis 546
BRIGATTI, M. F. (with F. BERGAYA and J. J. FRIPIAT), Contribution of Infrared Spectroscopy to the Study of Corrensite 458
BRIGATTI, M. F. (with L. POPPI), Interlayer Water and Swelling Properties of Natural and Homoionic Corrensite 128
Brindley, George W., Lecture
1984, by W. D. Keller, The Nascence of Clay Minerals 161

C

Calcination (see Thermal treatment)
Calcite
surfaces, crystallization of lepidocrocite on, from $Fe(ClO_4)_2$ solution 152
CAMBIER, P. (with U. SCHWERTMANN and E. MURAD), Properties of Goethites of Varying Crystallinity 369
CARDILE, C. M. (with J. H. JOHNSTON), Iron Sites in Nontronite and the Effect of Interlayer Cations from Mössbauer Spectra 21
CARDILE, C. M. (with J. H. JOHNSTON), Structural Studies of Nontronites with Different Iron Contents by ^{57}Fe Mössbauer Spectroscopy 295
CARR, R. M., Hydration States of Interlamellar Chromium Ions in Montmorillonite 357
Catalyst
Cr-montmorillonite, 1-hexane adsorbed on, IR 15
diffusion of water, pyridine in interlayer space of montmorillonite, relation to kinetics of catalytic reaction 275
Cation exchange
effect of interlayer structure of 2-layer vermiculite hydrates 51
formation of Cs-selective exchange sites in montmorillonite by change reduction, wetting-drying 257
homoionic corrensite, interlayer water, swelling properties 128
influence of exchangeable cation on IR of corrensite 458
influence of exchangeable cation on Mössbauer spectra of montmorillonite 21
phillipsite, Cs decontamination, immobilization 145
relation between exchangeable, total Mg in soils 340
sorption of transition metals on smectite-hydrous manganese dioxide suspension 118
zeolites, Cs decontamination, immobilizaiton 145
Cation ordering
lack of, in phengite-$2M_1$ 403

https://doi.org/10.1346/CCMN.1986.0330618 Published online by Cambridge University Press

Cation selectivity
production of Cs-selective exchange sites in montmorillonite by charge reduction, wetting-drying 257
Cation-exchange capacity (CEC)
bentonite 301
Cr-montmorillonite 15
kaolinite 173, 323, 490
montmorillonite 44, 257, 275, 301
montmorillonite, for Cs, Rb, altered by wetting-drying 257
montmorillonite, reduced-charge, for Cs, Rb 257
palygorskite 44
parameter used in quantitative clay mineral analysis 81
sepiolite 44
sepiolite, NaOH-treated products 44
smectite 44, 257, 275, 301
smectite, hydrothermally treated 81, 301
soils 340
CEC (see Cation-exchange capacity)
Celadonite
chapter, book review, *Reviews in Mineralogy, Vol. 13* 367
Cerium
hydroxy-Al, Ce-pillared montmorillonite, synthesis, thermal treatment 89
hydroxy-Al, Ce-pillared montmorillonite, pore-size distribution, basal spacing, surface area 89
Cesium
cation exchange of natural, synthetic zeolites 145
decontamination, immobilization of, in phillipsite, pollucite 145
-feldspar-like phase, formed by thermal treatment of Cs-exchanged phillipsite 145
pollucite, formed by hydrothermal treatment of Cs-exchanged phillipsite 145
selective exchange sites for, in montmorillonite by charge reduction, wetting-drying 257
Chabazite
in altered basalt, chemical analysis 135
in altered basalt, formation by action of meteoric water, during submarine hydrothermal event 135
-rich tuff, Cs cation-exchange properties 145
Change-transfer complex
on benzidine-hectorite complexes 510
Characterization of Dehydration-induced Luminescence of Kaolinite, by N. Lahav, L. Coyne, and J. G. Lawless 207
Chemical analysis
analcime, from basaltic glass 135
apophyllite, from basaltic glass 135
basalt 135
bauxite, altered, resilicified 517
chabazite, from basaltic glass 135
feldspar 31
feldspar alteration products 31
glauconite 473
illite/chlorite, 1:1, by AEM 463
mesolite, from basaltic glass 135
Mn-bearing bauxites 532
montmorillonite, fluorinated, NH_4-, hyroxyl-Al, PILCs 89
montmorillonite, fluorinated, NH_4- 89
montmorillonite, hydroxychromium 357
montmorillonites, distinction among types, by statistical analyses of chemical analyses 546
nontronite, Ca-exchanged 21
nontronites 295
palygorskite, Saudi Arabia 451
parameter, used in quantitative clay mineral analysis 107
phengite-2M_1 403
phillipsite-rich tuff 145
smectite 81, 275
smectites, crystal chemical distinction by statistical treatment 546
smectites, multivariate analysis of variance, discriminant analysis 563, 546
soils 340
stilbite, from basaltic glass 135
sudoite 410
Chlorite
coating on pore throats of clay sands, SEM 76
content in soils 340
diagenetic, within illite/smectite, HRTEM, AEM 228
/illite, 1:1, HRTEM, AEM, lattice fringe images 463
intercalated with berthierine, HRTEM 228
Mg in, in soils 340
/smectite (corrensite), XRD, TGA, DTA, interlayer water content, swelling 123
/smectite (corrensite), homoionic, XRD, TGA, DTA, interlayer water content, swelling 123
/smectite, probability diagrams for quantification 379
/smectite, stacking parameters from probability diagrams 379
sudoite, crystal structure, chemical analysis 410
CHRISTOPH, G. G. (with R. T. TETTENHORST and C. E. CORBATÓ), Structure Refinement of Deuterated Boehmite 71
Chromium
-exchanged montmorillonite, adsorbed 1-hexene, IR 15
-exchanged montmorillonite, preparation, CEC 15
interlamellar, hydration state of, in montmorillonite 357

outstanding editor award to Ada Swineford 160
Effect of Clay Mineralogy and Aluminum and Iron Oxides on the Hydraulic Conductivity of Clay-Sand Mixtures, by N. Alperovitch, I. Shainberg, R. Keren, and M. J. Singer 443
Effect of Ion-Pair Formation on Boron Adsorption by Kaolinite, by S. V. Mattigod, J. A. Frampton, and C. H. Lim 433
Effect of Simple Sugars on the Alkaline Transformation of Ferrihydrite into Goethite and Hematite, by R. C. Cornell 219
Effect of Solution Conditions on the Properties and Morphology of Goethite Formed from Ferrihydrite, by R. M. Cornell and R. Giovanoli 424
Effect of the Dielectric Constant on the Double Layer on Clays, by A. K. Helmy and I. M. Natale 329
EG (see Ethylene glycol)
EGME (see Ethylene glycol monoethyl ether)
Electromobility
calculating zeta potential from, using Smoluchowski equation, for mica 193
mica, in KCl, $Cr(NO_3)_3$, cetyltrimethylammonium bromide solutions 193
Electromobility of Mica Particles Dispersed in Aqueous Solutions, by R. M. Pashley 193
Electron microprobe analysis
phengite-$2M_1$ 403
plagioclase, altered 31
sudoite 410
Electron spin resonance (ESR)
benzidene-hectorite complexes 510
Cu adsorption on gibbsite, boehmite 397
Enthalpy
of solution, of interlamellar phase in smectite 350
ERHMAN, J. M. (with E. T. CLARKE and R. H. LOEPPERT), Crystallization of Iron Oxides on Calcite Surfaces in Static Systems 152
Erionite
-rich tuff, Cs cation-exchange properties 145
ESLINGER, E. (with A. A. HASSANIPAK), Mineralogy, Crystallinity, O^{18}/O^{16}, and D/H of Georgia Kaolins 99
ESR (see Electron spin resonance)
Ethylene glycol (EG)
adsorption on kaolinite, hydrated kaolinite 415
-treated chlorite/smectite, probability diagrams for quantification 379
-treated mica/smectite, probability diagrams for quantification 379
Ethylene glycol monoethyl ether (EGME)
specific surface area by adsorption on montomorillonites, soil clay 391

F

Feldspar
alteration to kaolinite, halloysite, gibbsite 31
-like phase, produced by thermal treatment of Cs-exchanged phillipsite 145
TEM, petrography, electron probe analysis 31
weathering in lateritic saprolite 31
Feldspar Weathering in Lateritic Saprolite, by R. R. Anand, R. J. Gilkes, T. M. Armitage, and J. W. Hillyer 31
Ferrihydrite
effect of sugars on transformation to goethite, hematite 219

https://doi.org/10.1346/CCMN.1986.0330618 Published online by Cambridge University Press

synthesis of goethite from 219, 369, 424
synthesis of hematite from 219
Fiber
goethite, acicular particles, by TEM 219, 424
palygorskite, NaOH-treated, XRD, TEM 44
palygorskite, Saudi Arabia 451
palygorskite, separation from smectite 438
sepiolite, NaOH-treated, XRD, TEM 44
Fluoride
ion, reaction with DMSO in preparation of 10-Å hydrated kaolinite 333
Li-hectorite, TEM, particle morphology 352
Fluorescent probe
tryptophan, salicylic acid, admixed with kaolinite, effect on luminescence 207
Formamide
intercalate with kaolinite, MAS-NMR, degree of ordering 173
Formation of Highly Selective Cesium-Exchange Sites in Montmorillonites, by A. Maes, D. Verheyden, and A. Cremers 251
Fourier analysis
vermiculite, 2-layer hydrates 51
FRAMPTON, J. A. (with S. V. MATTIGOD and C. H. LIM), Effect of Ion-Pair Formation on Boron Adsorption by Kaolinite 433
FRIPIAT, J. J. (with F. BERGAYA and M. F. BRIGATTI), Contribution of Infrared Spectroscopy to the Study of Corrensite 458

G

Gibbs free energy
formation of diaspore 1
formation of pyrophyllite 1
Gibbsite
alteration product of feldspar, TEM, SEM, petrography, electron probe analysis 31
Cu adsorption on, ESR 397
Cu adsorption on, influence of glycine 397
orientation of Cu complexes on 397
precipitation in hydroxy-Al-montmorillonite, influence of sorbed Cu 468
weathering of feldspar to 31
GIESE, R. F., JR. (with P. M. COSTANZO), Dehydration of Synthetic Hydrated Kaolinites: A Model for the Dehydration of Halloysite(10Å) 415

GIOVANOLI, R. (with R. M. CORNELL), Effect of Solution Conditions on the Properties and Morphology of Goethite Formed from Ferrihydrite 424
Glauconite
chapter, book review of *Micas, Reviews in Mineralogy, Vol. 13* 367
pellets, XRD, SEM, HRTEM, chemical analysis 473
structure, growth mechanisms by HRTEM 473
Glycine
influence of, on Cu adsorption on boehmite, gibbsite 397
Goethite
Al-rich, in Mn-bearing bauxite, SEM 532
crystallizations with lepidocrocite on calcite surfaces from $Fe(ClO_4)_2$ solutions 152
hydrothermal treatment to yield monodomainic product 369
morphology, as function of synthesis pH 424
synthesis from ferrihydrite 369, 424
synthetic, TEM 219, 369, 424
synthetic, multidomainic, XRD, TEM, TGA, DTA, IR, surface area, dissolution rate 369
synthetic, properties, as function of crystallinity 369
transformation of ferrihydrite to, effect of sugars on 219
GOLDEN, D. C. (with J. B. DIXON, H. SHADFAN, and L. A. KIPPENBERGER), Palygorskite and Sepiolite Alteration to Smectite under Alkaline Conditions 44
Gouy model
double layer potential of montmorillonite 329
double layer theory, used to calculate swelling pressure of shales 501
Grinding
kaolinite, effect on luminescence 207
Growth Conditions and Genesis of Spherical and Platy Kaolinite, by S. Tomura, Y. Shibasaki, H. Mizuta, and M. Kitamura 200

HUSSEY, G. A. (with C. H. CHU and L. J. JOHNSON), Quantitative Clay Mineral Analysis using Linear Simultaneous Equations 10
Hydralsite
basal spacings 1
formation by hydrothermal treatment of kaolinite 1
Hydrate
hydrated kaolinite, 10-Å, synthesis using HF and DMSO-kaolinite intercalate 333
hydrated kaolinite, 10-Å, synthesis using methanol washing of DMSO-kaolinite intercalate 333
two-layer, of vermiculite, interlayer structure 51
two-layer, of vermiculite, unit-cell dimensions, crystal structure 51
Hydration States of Interlamellar Chromium Ions in Montmorillonite, by R. M. Carr 357
Hydraulic conductivity
illite-, montmorillonite-sand mixtures, effect of clay mineralogy, iron oxide, aluminum oxide on 443
Hydrazine
intercalate with kaolinite, MAS-NMR, degree of ordering 173
Hydrogen
bond in kaolinite slurries 323
bond, in alkenes adsorbed on Cr-montmorillonite 15
positions, in boehmite, deuterated boehmite 71
role of, in reduction, reoxidation of Fe in nontronite 539
uptake in nontronite during reduction, reoxidation of Fe 539
Hydrophobic properties
dodecylammonium-treated clays, separation of palygorskite from 438
Hydrothermal
event, submarine, formation of zeolites, smectite during, from basaltic glass 135
formation of halloysite, kaolinite, function of $[H_4SiO_4]$ 1
product from phillipsite, SEM 145
stability of kaolinite, pyrophyllite 1

https://doi.org/10.1346/CCMN.1986.0330618 Published online by Cambridge University Press

stability of smectite in simulated nuclear waste repository 81
treatment of goethite to yield monodomainic product 369
treatment of phillipsite to fix Cs 145
treatment of phillipsite to yield pollucite 145
treatment of smectite 81
Hydroxy-Al-montmorillonite
Ce-, La-, pillared, synthesis, pore-size, basal spacings, thermal treatment 89
fluorinated-NH_4-pillared, synthesis, basal spacing, pore size, thermal treatment 89
precipitation of gibbsite in 468
product from smectite, XRD, Cu adsorption 468
Hydroxyl
-Al ions, role in formation of allophane, imogolite, noncrystalline aluminosilicates 312
dehydration, rehydration of kaolinite 1
-stretching in IR of corrensite, effect of thermal treatment, exchangeable cation 458

I

Illite
chapter, book review of *Micas, Reviews in Mineralogy, Vol. 13* 367
/chlorite, 1:1, HRTEM, AEM, lattice fringe images 463
content in soils, by XRD 340
formation from smectite by hydrothermal, K-saturation treatment 81
formation from smectite during diagenesis 265
illitization, rate constants 81
Mg in, in soils 340
-sand mixtures, effect of Fe, Al oxides on hydraulic conductivity 443
SEM 161, 265
/smectite materials in smectite-to-illite reaction, XRD, Reichweite ordering, SEM 265
/smectite, containing chlorite, berthierine, HRTEM 228
/smectite, fundamental particles, discussion 559, 560
/smectite, implications of stability diagrams 561
/smectite, phase equilibria relations with kaolinite 561
swelling in saline solutions 443
Imogolite
formation in absence, presence of citric acid 312
morphology, structure 237
small-angle scattering, effect of heating 237
TEM, XRD, IR 312
Implications of Illite/Smectite Stability Diagrams: A Discussion, by P. E. Rosenberg, J. A. Kittrick, and B. M. Sass 561
Influence of Citric Acid on the Formation of Short-Range Ordered Aluminosilicates, by K. Inoue and P. M. Huang 312
Influence of Glycine on Cu^{2+} Adsorption by Microcrystalline Gibbsite and Boehmite, by M. B. McBride 397
Influence on Inorganic and Organic Ligands on the Formation of Aluminum Hydroxides and Oxyhydroxides, by A. Violante and P. M. Huang 181
Influence of Sorbed Copper(II) on the Dynamics of $Al(OH)_3$ Precipitation in Hydroxy-Al-Montmorillonite, by J. B. Harsh and H. E. Doner 468
Infrared Studies of 1-Hexane Adsorbed onto Cr^{3+}-exchanged Montmorillonite, by J. M. Adams and T. V. Clapp 15
Infrared spectroscopy (IR)
Al hydroxide, oxyhydroxides formed in presence of tannic acid 181
allophane 312
aluminosilicates, noncrystalline 312
bayerite, formed in presence of tannic acid 181
benzidine-hectorite complexes 510
corrensite, contribution to structural information 458
corrensite, influence of exchangeable cation, thermal treatment 458
goethite, OH-bending modes, function of crystallinity 369
goethite, synthetic, multidomainic 369
halloysite(10Å) 415
imogolite, proto-imogolite 312
internal reflectance spectroscopy, montmorillonite, soil clay 391
internal reflectance spectroscopy, measurements of specific surface area by 391
kaolinite 323, 415, 483
kaolinite, aqueous suspension 483
kaolinite, hydrated 415
kaolinite-DMSO intercalate 490
1-hexane adsorbed on Cr-montmorillonite 15
pseudoboehmite, formed in presence of tannic acid 181
INOUE, K. (with P. M. HUANG), Influence of Citric Acid on the Formation of Short-Range Ordered Aluminosilicates 312
Instrument
IR, controlled atmosphere cell 15
swelling pressure of shale 501
vapor-phase sorption apparatus 123
X-ray diffraction alignment 471, 472
Interaction of Aliphatic Amines with Montmorillonites to Enhance Adsorption of Organic Pollutants, by T. A. Wolfe, T. Demirel, and E. R. Baumann 301
Intercalation
fixation of alcohols in interlamellar space of alkylammonium montmorillonite 350

https://doi.org/10.1346/CCMN.1986.0330618 Published online by Cambridge University Press

kaolinite-DMSO, -formamide, -hydrazine, degree of ordering in, by MAS-NMR 173
kaolinite-DMSO, XRD, NMR, neutron diffraction 490
kaolinite-DMSO, crystal structure determination 490
kaolinite-DMSO, NMR 173, 490
kaolinite-DMSO, preparation of 10-Å hydrated form of kaolinite from, by HF reaction, methanol washing 333
kaolinite-DMSO, synthesis 333, 415, 490
reactions, montmorillonite-pyridine, followed by XRD 275
Interlayer
aggregation of alcohols, in interlamellar space of alkylammonium montmorillonite 350
cation, nontronite, effect on Mössbauer spectra 21, 295
Cr, polymerization of, in montmorillonite 357
distances, vermiculite-salt solutions, by XRD, as function of swelling pressure 244
hydration states of interlamellar Cr in montmorillonite 357
space, diffusion of water, pyridine in, of montmorillonite 275
Interlayer Structures of the Two-Layer Hydrates of Na- and Ca-Vermiculites, by P. G. Slade, P. A. Stone, and E. W. Radoslovich 51
Interlayer Water and Swelling Properties of Natural and Homoionic Corrensite, by M. F. Brigatti and L. Poppi 128
Internal reflectance spectroscopy
measurement of specific surface area of montmorillonite, soil clays by 391
International Clay Conference
meeting announcement, 1985 80
Interpretation of Solid State ^{13}C and ^{29}Si Nuclear Magnetic Resonance Spectra of Kaolinite Intercalates, by J. G. Thompson 173
Interstratification (see also Mixed layering)
chlorite/smectite, probability diagrams for, quantification 379
halloysite/hydrated halloysite, Allegra's mixing function for random, ordered stacking 261
illite/chlorite, 1:1, HRTEM, AEM, lattice fringe images 463
illite/smectite, SEM, XRD, Reichweite ordering 265
illite/smectite, containing chlorite, berthierine, HRTEM 228
illite/smectite, formation during diagenesis 265
illite/smectite, fundamental particles, discussion 559, 560
mica/smectite, probability diagrams for, quantification 379
quantification using probability diagrams 379
smectite-to-illite reaction sequence, XRD, SEM, Reichweite ordering of illite/smectite 265
Interstratification of 10- and 7-Å Layers in Halloysite: Allegra's Mixing Function for Random and Partially Ordered Stacking, by E. Slansky 261
Interstratified Clays as Fundamental Particles: A Discussion, by B. L. Sawhney and R. C. Reynolds, Jr. 559
Interstratified Clays as Fundamental Particles: A Reply, by P. H. Nadeau, M. J. Wilson, W. J. McHardy, and J. M. Tait 560
Ion speciation
boron, effect of ion-pair formation on adsorption on kaolinite 433
IonSiv
IE-95, Cs cation-exchange properties 145
IR (see Infrared spectroscopy)
Iron
content, effect of, on structure of nontronite 295
crystallization of, on calcite surfaces, from $Fe(ClO_4)_2$ solution 152
goethite, morphology, function of synthesis pH 424
goethite, properties, function of crystallinity 369
goethite, synthesis from ferrihydrite 424
hematite, synthesis from ferrihydrite 424
oxalate-soluble, in goethite, function of crystallinity 369
oxide, effect of, on hydraulic conductivity of clay-sand mixtures 443
reduction, reoxidation of, in nontronite, role of hydrogen 539
sites in nontronite, Mössbauer spectra, effect of exchangeable cations 21, 245
Iron Sites in Nontronite and the Effect of Interlayer Cations from Mössbauer Spectra, by J. H. Johnston and C. M. Cardile 21
Isotope
oxygen, carbon, of altered pillow lavas 135
oxygen, carbon, of apophyllite, in altered pillow lavas 135
oxygen, carbon, of calcite, in altered pillow lavas 135
oxygen, carbon, of quartz, in altered pillow lavas 135
oxygen, hydrogen ratios in hard, soft Georgia kaolins 99

distinction between montmorillonite, beidellite by statistical treatment of chemical analyses 546
dodecylammonium-treated, separation of palygorskite from 438
from basaltic glass, association with zeolites 135
hectorite, synthetic Li-fluor, TEM, particle morphology 362
hydrothermal alteration to illite 81
-hydrous manganese dioxide suspension, sorption of transmission metals on, 118
/illite, containing chlorite, berthierine, HRTEM 208
/illite, fundamental particles, discussion 559, 560
/illite, implications of stability diagrams 561
/illite, in smectite-to-illite reaction sequence, XRD, Reichweite ordering, SEM 265
/illite, phase equilibria relationships with kaolinite 561
in glauconite pellets 473
in smectite-to-illite reaction sequence, XRD, SEM, Reichweite ordering 265
Mg in, in soils 340
/mica, probability diagrams for quantification 379
/mica, stacking parameters from probability diagrams 379
palygorskite mixture, XRD 438
parathion adsorbed on, XRD, solubility 62
reaction to illite during diagenesis 265, 559, 560, 561
saponite, from weathered phlogopite, oxygen isotope content 214
SEM 161
sols, particle association in, by TEM 362
stability in simulated nuclear waste repository 81
surface condensation of organophosphate esters on 62
vapor-phase sorption, polymerization of phenols by, in air, nitrogen 123
zeolite assemblage, formation from basaltic glass during submarine hydrothermal event 135
zeolite assemblage, formation by meteoric water on basaltic glass 135
Smoluchowski equation
use in calculation of zeta potentials from electromobilities, for mica 193
Soil (see also Soil clay)
book review, *The Surface Chemistry of Soils* 367
chemical analysis, CEC 340
relation between exchangeable, total Mg in 340
mechanics, shale, swelling pressure calculation from mineralogical properties 501
mineral content, by XRD 340
Soil clay
surface area by EGME adsorption 391
surface area by internal reflectance spectroscopy 391
Sol
Li-fluor-hectorite, particle morphology, by TEM 362
smectite, particle association in, by TEM 362
Source clay, CMS
montmorillonite, STx-1, standard in mineral analyses 563
montmorillonite, SWy-1, transition metal adsorption on 118
kaolinite, KGa-1, KGa-2, in synthesis of 10-Å hydrated product 333
kaolinite, KGa-1, Raman spectroscopy 483
kaolinite, KGa-1, boron adsorption, effect of ion-pair formation 433
kaolinite, KGa-1, standard in mineral analyses 563
nontronite, SWa-1, reduction, reoxidation of Fe in 539
smectite, SWy-1, transformation to hydroxy-Al complex 468
SPOSITO, G. (with C. J. JOHNSTON and R. R. BIRGE), Raman Spectroscopic Study of Kaolinite in Aqueous Suspension 483
