Erratum

SHEA Spring 2026 Abstracts Supplement – ERRATUM

DOIs: See Table 1 below; first published online by Cambridge University Press 23 June 2026

In the initial publication of the SHEA Spring 2026 Abstracts Supplement (issue 6(S1)), an incorrect title was associated with each abstract. The abstract titles have been corrected. Table 1 includes the DOI, correct title, and previously published incorrect title for each abstract, listed in the order in which they appear in the supplement. The editorial office apologizes for the error.

Table 1. Abstract titles in the SHEA Spring 2026 Abstracts Supplement

Running Order	DOI	Correct Title	Previously Published Incorrect Title
1	10.1017/ash.2026.10431	Improving Empiric Antibiotic Selection for Patients with Cancer Hospitalized with Infection: Secondary Analysis of the INSPIRE Trials	Partnering for Prevention: A Public Health & Academic Collaboration to Address Measles Outbreaks in Kentucky
2	10.1017/ash.2026.10432	Artificial Intelligence Photo-Detection of High-Risk Lines to Prevent Central Lines Associated Bloodstream Infection (CLABSI)	Impact of Inpatient MRSA decolonization strategy at 9 hospital system in Eastern North Carolina
3	10.1017/ash.2026.10433	Fecal microbiota transplantation results in durable long-term engraftment of donor derived anaerobic taxa and MDRO decolonization	Leadership Experiences of Infection Prevention and Control Professionals: LEAD-IP Study
4	10.1017/ash.2026.10435	Social Deprivation, Antibiotic Prescribing Quality, and Outcomes in an Elderly Emergency Department Cohort	Resistance (Data) is Not Futile: Building a CLSIM39 Compliant NHSN AR Antibiogram Dashboard for Hospital Antimicrobial Stewards
5	10.1017/ash.2026.10434	Resistance (Data) is Not Futile: Building a CLSIM39 Compliant NHSN AR Antibiogram Dashboard for Hospital Antimicrobial Stewards	A Model for High Reliability in Infection Prevention: The Role of the Generalist, Specialist and Centralized Surveillance in Infection
6	10.1017/ash.2026.10436	Laboring Over Allergies: Assessing Penicillin Allergies and De-Labeling Potential in Obstetrics Population	Respiratory Infection Prevention in a Residential Treatment Facility for Pregnant and Parenting Persons with Substance Use Disorders
7	10.1017/ash.2026.10437	Attributing Broad-Spectrum Antibiotic Use After Pediatric Solid Organ Transplantation to Culture Evaluation, Surgical Infection, and Re	Clinical Decision Support Systems for Infection Prevention and Control: A Survey of Adoption, Maturity, and Barriers to Implementation
8	10.1017/ash.2026.10438	Inpatient Urine Culture Yield Was Not Higher with Fever, Denver Safety-Net Health System, April 2016–December 2025	Laboring Over Allergies: Assessing Penicillin Allergies and De-Labeling Potential in Obstetrics Population
9	10.1017/ash.2026.10439	Impact of Inpatient MRSA decolonization strategy at 9 hospital system in Eastern North Carolina	Real-World Uptake and Impact of Maternal Respiratory Syncytial Virus (RSV) Vaccination and Infant Nirsevimab in Infants ≤ 6 Months
10	10.1017/ash.2026.10440	From Colonization to Prevention: Reducing Staphylococcus aureus Burden with Decolonization	Large Drug-resistant Klebsiella pneumoniae Outbreak in an Acute Care Hospital — Indiana, United States, 2025
11	10.1017/ash.2026.10441	Impact of a Single-Set Blood Culture Restriction on the Epidemiology of Bloodstream Infections During the 2024 National Bottle Shortage	Carriage of Endemic and Emerging Multidrug-Resistant Organisms (MDROs) in Ventilator-Capable Skilled Nursing Facilities (vSNFs)
12	10.1017/ash.2026.10442	Trends in Clostridioides difficile Diagnostic Testing Methods in U.S. Acute-Care Hospitals	Comparison of MDRO Carriage to Environmental Reservoirs in Ventilator-Capable Skilled Nursing Facilities (vSNFs)
