CAMBRIDGE JOURNALS

Discover the benefits of *WPSJ* on Cambridge Journals Online (CJO)

- Register for content alerts and receive notification when new articles are published online **journals.cambridge.org/wps-alerts**
- Save searches
- Search across Cambridge Books Online (CBO) and Cambridge Journals Online (CJO) simultaneously using our new faceted search functionality
- Register for updates on new developments and sample content from your 'favourite journals'
- Easily download citations to reference management software

Members of WPSA who prefer online access should subscribe through the society website **www.wpsa.com**

CJOmobile (CJOm)

CJOmobile is now available and offers the following functionality:

- CJOm is optimised for smart phones and other small mobile devices. Mobile devices will be detected and automatically directed to CJOmobile
- If users sign up for content alerts, or save searches or articles, they are now available on the main CJO and vice versa
- CJOm offers increased speed and convenience for mobile users
- CJOm also functions as a faster access point for readers in countries with low bandwidth internet access

XVth EUROPEAN POULTRY CONFERENCE

DUBROVNIK, CROATIA

17th to 21st September 2018

Essential topics will be addressed by internationally recognized experts under the following sessions:

- *Economics and Marketing*
- *Nutrition*
- *Breeding and Genetics*
- *Reproduction and incubation*
- *Egg and Meat quality*
- *Safety of poultry products*
- *Diseases*
- *Welfare and behavior*
- *Education and Technology transfer*
- *Other species*

Chairperson of the Conference:
Prof. Dr. Estella Prukner-Radovčić
prukner@vef.hr

Chairperson of the Scientific Committee:
Prof. Dr. Helga Medic,
hmedic@pbf.hr

Secretary:
Assist. Prof. Danijela Horvatek Tomić

Innovating the future

Processed chicken feet have become a $500 million market - and that's why Meyn developed the Automatic Feet Selection System.
It provides a fully automated process complete with camera and product sensing equipment, and now complemented by an automatic ejection machine. Grading and sorting takes place in real time, and animal welfare data is captured to comply with local regulations.

LESS FEED, MORE MEAT.

LESS FEED – + MORE MEAT

Hubbard
YOUR CHOICE, OUR COMMITMENT

Feed cost represents over 70% of live production cost of a broiler, the highest levels in history. Hubbard offers the best products to save feed costs on breeder and broiler level.

- The "Feedsaver" concept of the JV and F15 breeders saves about 15% of feed to produce a broiler day-old-chick compared to conventional breeders.
- All Hubbard broilers have an excellent FCR compared to other breeds.

Just use less kg of feed to produce 1 kg of live broiler, 1 kg of carcass or 1 kg of total meat !

Hubbard is a company of

It is all about the embryo.
Successful incubation relies on supporting the needs of the growing embryo with the right tools. Managing and monitoring endothermic, neutral, exothermic and hatching environments by tailoring conditions to the specific embryonic needs throughout the hatch.

And it is also about knowledge.
With 250 years of combined knowledge, our team of hatchery professionals know how to use the right tools to get the best results.

MYCOTOXIN MANAGEMENT: DISCOVER HOW WE ADD MORE

Nutritionists create the best possible composition and use the best raw materials. However they can't control the conditions in the field or during storage. Mycotoxins can have tremendous effect on health and growth of animals. Nutriad is the expert in solutions for controlling molds and mycotoxins in animal feed and raw materials, by offering a complete, EU-approved range of solutions across species. These solutions have been tested extensively and have proven reliability. Supporting customers in protecting their animals and achieving higher performance.

VICTAM Asia 2018

FIAAP grapas

Asia's largest animal feed technology and ingredients event

Visit **VICTAM Asia 2018** to learn the latest on animal feed technology and feed ingredients and additives. Meet **over 200 exhibitors** and make the most of your time by using our **business match-making program**.

What's on show at VICTAM Asia 2018?
- Feed production technology • Packaging • Energy efficiency
- Auxiliary equipment • Ingredients • Additives • Formulation
- Laboratory equipment • Quality control

Visitor profiles
- CEO's • Nutritionists • Feed formulators • Buyers • Mill managers
- Directors

From which companies?
- Animal feed compounders • Aquafeed producers
- Petfood manufacturers • Integrators • Co-operatives • Hatcheries
- Fish farms • Large farms, etc.

Industry related conferences
- FIAAP Asia Animal Nutrition Conference 2018
- Proagrica Feed Efficiency Conference Asia 2018
- Petfood Forum Asia 2018 • GMP+ Feed Safety Seminar

Supported by
- The Feedstuff Users Promotion Association • Thai Feed Mill Association • The Animal Husbandry Association of Thailand
- Animal Health Products Association • Department of Fisheries
- Ministry of Industry • The Thai Chamber of Commerce
- Thailand Convention and Exhibition Bureau

Thinking beyond equipment to deliver improved nutrition and health to your animals.

At Bühler, we understand not only the technology behind producing feed, but also the meaning of feed value for the animal. Our developments are heading towards a significant reduction of feed costs, while at the same time optimizing animal performance, health and welfare. With Bühler's latest developments, the hammer mill Granulex™ for high capacity grinding up to 75 t/h and the pellet mill Kubex™ T saving up to 20 % of energy, you make not only a safe investment into animal health and performance, but also into low production costs. At the end, Bühler pays off – both for animals and feed millers.
