Protestantism and patriotism offers a fundamental reinterpretation of English political culture between 1650 and 1668. It is also both the most detailed study to date of the causes and consequences of the first two Anglo-Dutch Wars (1652–1654 and 1665–1667), and a reconfiguration of the English political nation which engaged in those two conflicts.

Professor Pincus argues that it is impossible to understand the making of English foreign policy in this period without a careful study of its ideological contexts, while at the same time suggesting that accounts of English domestic politics which ignore the ideological implications of England's place in European political culture are impoverished. Because of the broad context in which the Anglo-Dutch Wars are situated, the book will appeal not only to specialists in English foreign policy but to all those interested in seventeenth-century English and Dutch politics and culture.

This is a series of monographs and studies covering many aspects of the history of the British Isles between the late fifteenth century and early eighteenth century. It includes the work of established scholars and pioneering work by a new generation of scholars. It includes both reviews and revisions of major topics and books which open up new historical terrain or which reveal startling new perspectives on familiar subjects. All the volumes set detailed reseach into broader perspectives and the books are intended for the use of students as well as of their teachers.
