HENDRIX GENETICS

FOUNDERS OF FUTURE GENERATIONS

Hendrix Genetics is a global multi-species animal genetics company investing in technology, people and progress to deliver sustainable value to business partners, employees and society.

Hendrix Genetics has 4 divisions: ISA, the layer breeding division; Hybrid the turkey breeding division; Hypor the pig breeding division and SFPA, the poultry distribution division. Hendrix Genetics Research & Technology Centre supports the breeding divisions of the company with up to date expertise and technologies that are shared between the genetic selection programs of the various species.

Hendrix Genetics has around 1000 employees with a further 500 working in joint ventures. This Hendrix Genetics team combines 50 fully or partially owned companies in 22 countries around the world.

NEW BOOKS AVAILABLE NOW

Improving the safety and quality of eggs and egg products

Volume 1: Egg chemistry, production and consumption

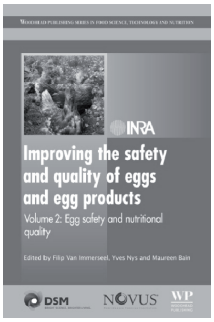

• reviews recent research in the areas of disease, egg quality and the development of new technologies to assure egg safety
• comprehensively covers organic, free-range and processed egg production
• an essential reference for managers in the egg industry, food industry professionals using eggs and those with a research interest in the subject

ISBN-13: 978 1 84569 754 9
August 2011 - 632 pages
£160.00 / US$270.00 / €190.00

Discount WPSA members (number neded), code to be mentioned

One volume WPSA20 =20%

Two volumes WPSA30 =30%

Volume 2: Egg safety and nutritional quality

• focuses on egg safety and nutritional quality with reference to egg contaminants such as Salmonella Enteritidis
• discusses monitoring and control procedures in laying flocks and egg decontamination methods
• comprehensive overview of the role of eggs in nutrition and other health applications including dietary cholesterol, egg allergy, egg enrichment and bioactive fractions of eggs

ISBN-13: 978 0 85709 072 0
August 2011 - 448 pages
£155.00 / US$265.00 / €185.00

Managing Perfection

Improve the quality of your hatching eggs

The hatching egg that has just been produced is perfect. But how do you make sure that this hatching egg stays perfect? That it is not too warm, that it stays clean and without cracks? In short, how do you manage the perfection of your hatching eggs? Ask Vencomatic. As the marketleader in managing perfection of hatching eggs they know how.

Call us for an appointment: +31 (0)497 – 517380

INCUBATORS & HATCHERIES

S-line

Single-stage incubators for maximum economic return

Designed to maximize your profit for life

- High chick output
- High uniformity
- Low labour, maintenance and energy costs
- Future proof

The solution for all your needs in terms of capacity, features and expandability.

Two product ranges:

AirStreamerPlus™
Standard model offering all essential functionalities and features of a modern single-stage incubator.

BioStreamer™
Top-of-the-range product adding an advanced user interface and autopilot functions based on Embryo-Response Incubation™ technology.

Integrate your process

to add maximum value

Our company, a worldwide supplier of poultry processing systems, has the process knowledge and extended sales and service organization to equip and support you, adding maximum value to your process.

Working continuously on innovative technology, we are able to provide solutions for poultry lines up to 13,500 bph and systems to create the desired end products and packing.

We offer solutions for:

- Live bird supply
- Slaughtering, scalding and evisceration
- Chilling
- Cut-up and deboning
- X-ray bone detection
- Portioning and slicing
- Weighing, grading and batching
- Weigh price labeling
- Production control software
- Further processing

Thinking beyond equipment to deliver improved nutrition and health to your animals.

At Bühler, we understand not only the technology behind producing feed, but also the meaning of feed value for the animal. Our developments are heading towards a significant reduction of feed costs, while at the same time optimizing animal performance, health and welfare. With Bühler's latest developments, the hammer mill Granulex™ for high capacity grinding up to 75 t/h and the pellet mill Kubex™ T saving up to 20 % of energy, you make not only a safe investment into animal health and performance, but also into low production costs. At the end, Bühler pays off – both for animals and feed millers.
