NEW TUBEX® BLUNT POINTE STERILE CARTRIDGE UNIT: ONE-PIECE SIMPLICITY MAKES IV SAFETY EASY.

Introducing the newest approach to IV safety-the TUBEX® Blunt Pointe sterile cartridge unit.

Now there's a prefilled cartridge unit with no assembly, no adapters.

Simply remove the rubber cover and insert into a "needle-less" IV set.*

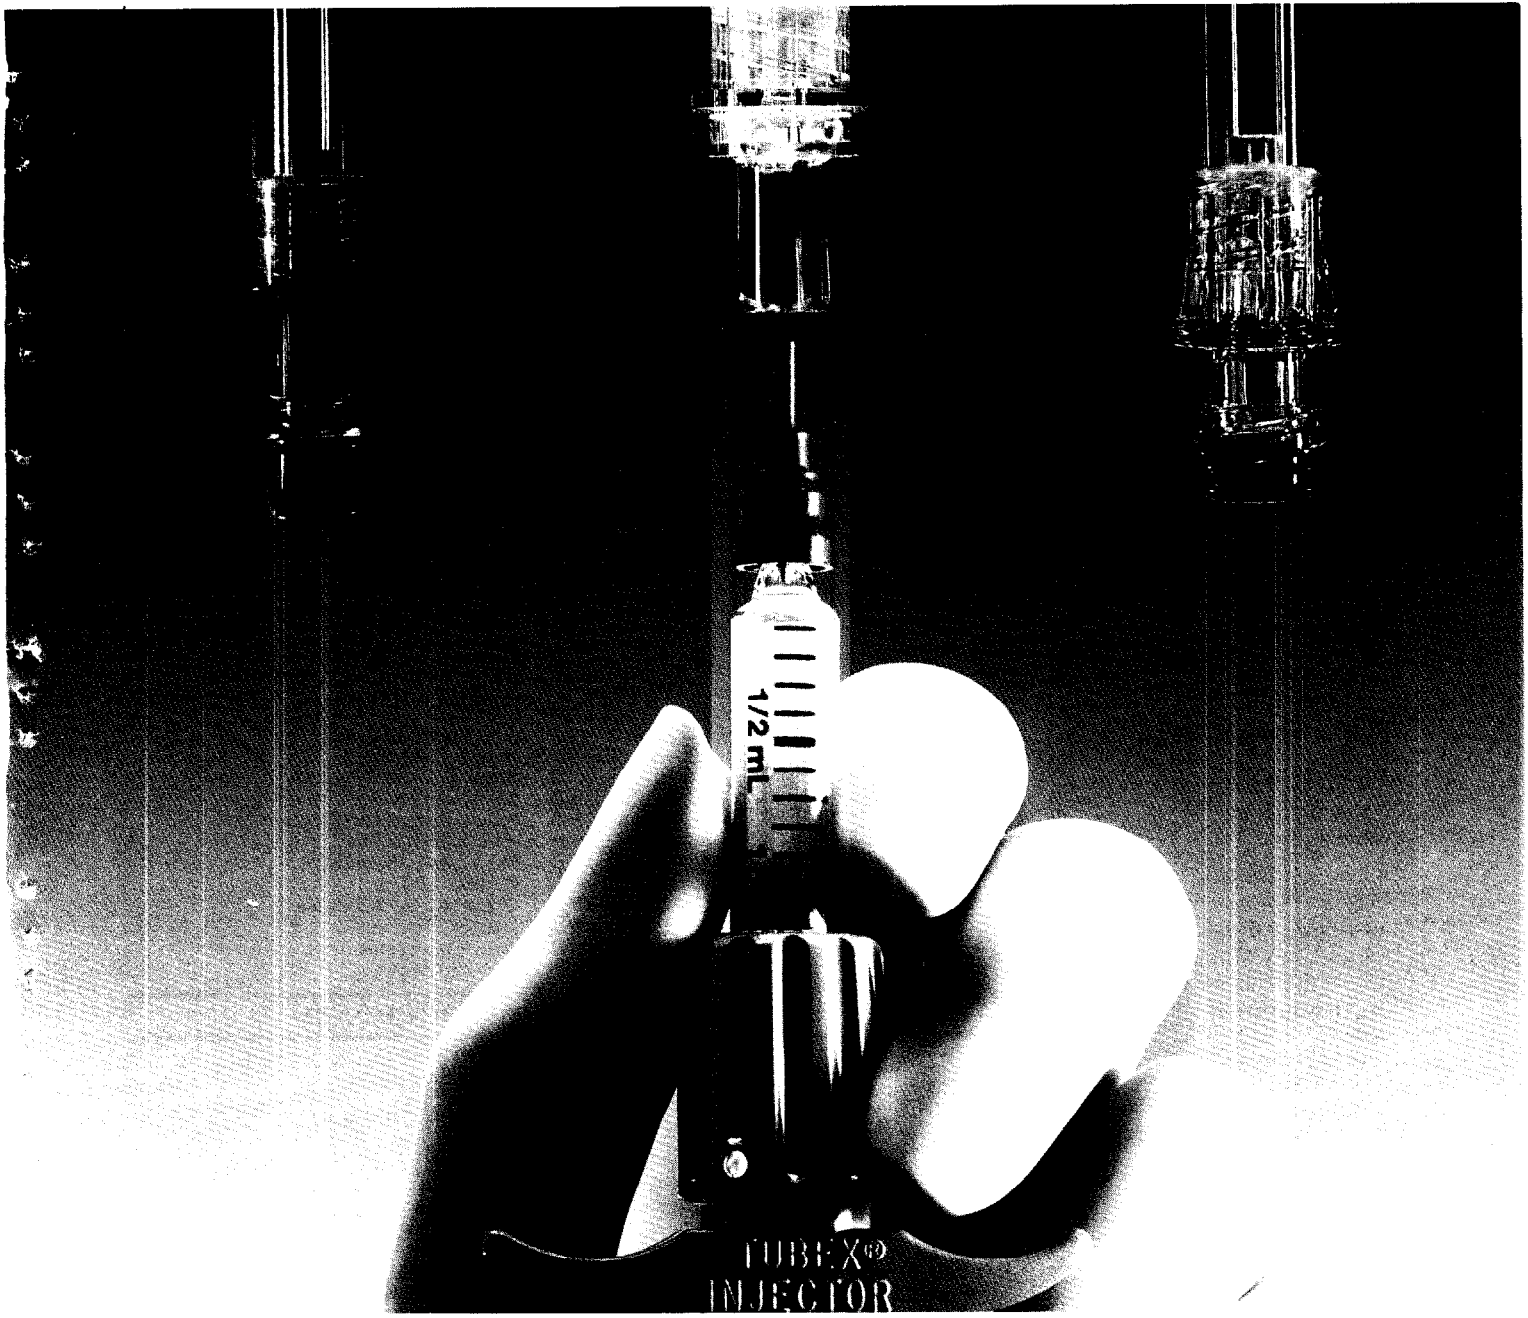

And needlestick accidents can be dramatically reduced because the point is not sharp.

TUBEX® Blunt Pointe sterile cartridge unit was designed to meet OSHA's engineering and work practice controls and FDA's recommendations for IV administration sets.[1,2]

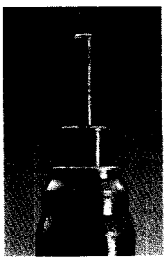

For IV safety, simplicity, and convenience choose TUBEX® Blunt Pointe sterile cartridge units.
