Latin

A Historical and Linguistic Handbook

Mason Hammond

Mr. Hammond sets out to show how Latin developed its complex structure. In the process of giving the historical and linguistic reasons for seemingly arbitrary forms and constructions, he helps to foster an awareness of the nature of linguistics. In addition to the book's detailed examination of phonology, morphology, and syntax, there are discussions of the Indo-European and Italic background of Latin, the development of the Roman alphabet, pronunciation, versification, postclassical Latin and the Romance languages, and the relation of English to Latin.
$14.00 (cloth); $6.95 (paper)

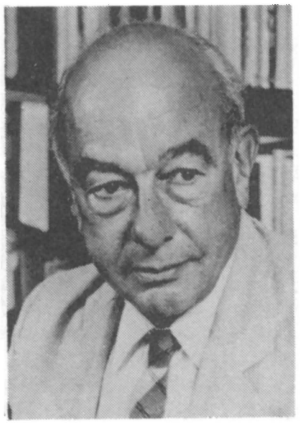

The Scandinavian Languages

An Introduction to Their History

Einar Haugen

This is the first history that offers in one volume a survey of the two-thousand-year development of the Scandinavian languages from their origin in Common Germanic to the present. Mr. Haugen provides a thorough introduction to the nature of the six standard languages of today, and offers a detailed account of their development, including analyses of phonetics, word formation, syntax, and the lexicon. $25.00

The Ways of Paradox and Other Essays

Expanded Edition

Willard Van Orman Quine

"Willard Van Orman Quine is the distinguished Harvard logician and philosopher who for more than a generation, and in prose as fresh and provocative as it is precise, has contributed fundamentally to the substance, the pedagogy, and the philosophy of mathematical logic."—*Science*

HANDBOOK OF PERCEPTION, Volume 7

Language and Speech

edited by EDWARD C. CARTERETTE and MORTON P. FRIEDMAN

CONTENTS: **Fundamental Aspects of Language and Speech:** *V. A. Fromkin*, The Formal Nature of Language and Linguistic Theories. *G. M. Olson and H. H. Clark*, Research Methods in Psycholinguistics. *P. Ladefoged and P. MacNeilage*, The Production of Speech and Language. *H. Whitaker*, Neurobiology of Language. *J. S. Sachs*, Development of Speech. **Coding, Perception and Meaning:** *C. J. Darwin*, The Perception of Speech. *W. A. Wickelgren*, Phonetic Coding and Serial Order. *J. Deese*, Semantics: Categorization and Meaning. *J. M. Carroll and T. G. Bever*, Sentence Comprehension: A Case Study in the Relation of Knowledge and Perception. *J. Laver*. Language and Nonverbal Communication. *E. Hatch*, Language Teaching and Language Learning **Disorders of Language and Speec** *H. Goodglass and N. Geschwind* Language Disorders. *H. Whitaker*. Disorders of Speech Produc Mechanisms. *P. L. French*, Disintegrating Theoretical Distinctions and Some Future Directions in Psycholinguistics.

1976, 494 pp., $29.50/£16.25
ISBN: 0-12-161907-9

SYNTAX

by PETER W. CULICOVER

This book serves as an introductory text to syntactic analysis and syntactic theory. It treats a number of the "core" phenomena of English syntax and uses them to illustrate the relationship between description and theory. The approach taken is a strict syntactic one, in that semantic considerations are ignored except insofar as they provide validation for an analysis arrived at on the basis of purely syntactic considerations. Particular emphasis is placed on the interrelationship between constraints on grammars and the learnability of languages.

The book covers the following topics, among others: the notational system and the implicit claims which it makes about what is possible in natural language; the inadequacy of phrase structure grammars for the description of natural language: selected fundamental aspects of English syntax such as Affix Hopping, the passive construction, questions, and sentential complements; rule ordering; constraints on transformation , formal language learnability. Appended to each chapter are a number of exercises and problems to familiarize the student with the notation and terminology of the text and to direct the student to is sues which go beyond the materal presented in the text itself.

1976, 336 pp., $12.50/£6.90
ISBN: 0-12-199250-0

AUDITORY ANALYSIS AND PERCEPTION OF SPEECH

edited by G. FANT and M. A. A. TATHAM

This publication contains the more phonetically oriented papers presented at a symposium on "Auditory Analysis and Perception of Speech" which was held in Leningrad in August 1973. The collection of papers found in this volume contributes to the understanding of phonetics by discussing which aspects of the speech wave have perceptual relevance, and by investigating present knowledge of the code relating speech wave dimensions and attributes to phonetic categorizations. The questions arise as to whether some of these relation can be expressed in working models for the auditory processing of speech, and what transformations can be envisaged in successive stages of the auditory system. A special feature of the book is that it exposes important work in the study of speech perception in the Soviet Union and Easterr Europe in addition to that from West ern rope, U.S.A. and Japan

1976, 574 pp., $29.75/£12.00

STUDIES IN NEUROLINGUISTICS, Volumes 1 and 2

edited by HAIGANOOSH WHITAKER and HARRY A. WHITAKER

Volumes in the PERSPECTIVES IN NEUROLINGUISTICS AND PSYCHOLINGUISTICS Series

CONTENTS OF VOLUME 1: *Y. Lebrun*, Neurolinguistic Models of Language and Speech. *E. Milner*, CNS Maturation and Language Acquisition. *G. A. Ojemann*, Subcortical Language Mechanisms. *M. L. Schnitzer*, The Role of Phonology in Linguistic Communication: Some Neurolinguistic Considerations. *D. F. Johns and L. L. LaPointe*, Neurogenic Disorders of Output Processing: Apraxia of Speech. *J. P. Mohr*, Broca's Area and Broca's Aphasia. *H. Goodglass*, Agrammatism. *E. B. Zurif and A. Caramazza*, Psycholinguistic Structures in Aphasia: Studies in Syntax and Semantics. *A. B. Rubens*, Transcortical Motor Aphasia.

1976, 318 pp., $22.50/£12.40; subscription price, $19.00
ISBN: 0-12-746301-1

CONTENTS OF VOLUME 2: *H. Whitaker*, A Case of the Isolation of the Language Function. *L. Swisher*, The Language Performance of the Oral Deaf. *A. R. Lecours and F. Rouillon*, Neurolinguistic Analysis of Jargonaphasia and Jargonagraphia. *D. Kimura*, The Neural Basis of Language Qua Gesture. *S. D. Krashen*, Cerebral Asymmetry. *J. E. Bogen*, Linguistic Performance in the Short-Term Following Cerebral Commissurotomy. *A. O. Dick*, Spatial Abilities. *H. Hécaen and H. Kremin*, Neurolinguistic Research on Reading Disorders Resulting from Left Hemisphere Lesions: Aphasic and "Pure" Alexia.

1976, 364 pp., $23.50/£12.90; subscription price, $20.00
ISBN: 0-12-746302-X

SYNTAX AND SEMANTICS, Volume 6

The Grammar of Causative Constructions

edited by MASAYOSHI SHIBATANI

series editor: JOHN P. KIMBALL

A Volume in the SYNTAX AND SEMANTICS Series

CONTENTS: *M. Shibatani*, The Grammar of Causative Constructions: A Conspectus. **Part 1: Theoretical Foundations:** *L. Talmy*, Semantic Causative Types. *J. D. McCawley*, Remarks on What Can Cause What. *F. J. Newmeyer*, The Precyclic Nature of Predicate Raising. *R. H. Wojcik*, Where Do Instrumental NPs Come From? *N. A. McCawley*, On Experiencer Causatives. *J. T. Heringer*, Idioms and Lexicalization in English. *R. Binnick*, The Iffyness of Transitive Verbs. *M. B. Kac*, On Composite Predication in English. **Part 2: Universals and Language Particular Studies.** *B. Comrie*, The Syntax of Causative Constructions: Cross-Language Similarities and Divergences. *R. Cooper*, Lexical and Nonlexical Causatives in Bantu. *T. Givón*, Some Constraints on Bantu Causativization. *Y. Kachru*, On the Semantics of the Causative Construction in Hindu-Urdu. *R. Hetzron*, On the Hungarian Causative Verb and Its Syntax. *K. E. Zimmer*, Some Constraints on Turkish Causativization. *J. A. Matisoff*, Lahu Causative Constructions: Case Hierarchies and the Morphology/Syntax Cycle in a Tibeto-Burman Perspective. *L. R. Maran and J. M. Clifton*, The Causative Mechanism in Jinghpaw. *R. Vichit-Vadakan*, The Concept of Inadvertence in Thai Periphrastic Causative Constructions. *C. N. Li and S. A. Thompson*, Development of the Causative in Mandarin Chinese: Interaction of Diachronic Processes in Syntax.

A challenge to current thinking in the theory of grammar

This is another of **The Language and Thought Series,** published by Thomas Y. Crowell under the general editorship of Jerrold J. Katz, D. Terence Langendoen, The Graduate Center, C.U.N.Y., and Harris Savin, University of Pennsylvania

Already published:
The Language of Thought
Jerry A. Fodor
214 pp. $10 1975

AN INTEGRATED THEORY OF LINGUISTIC ABILITY

THOMAS G. BEVER
JERROLD J. KATZ
D. TERENCE LANGENDOEN

448 pp. approx price $15 1976

This book argues that departures from the 'standard theory' by both Chomsky and generative semanticists are based on mistakes about the relation between a grammar and other components of linguistic ability. The book claims that an integration of these separate components vindicates the 'standard theory' and offers a better conception of linguistic ability.

PUBLICATIONS

of the

Linguistic Society of America

LANGUAGE, the journal of the Linguistic Society of America, carries technical articles dealing with problems of linguistic science, reviews of recently published linguistic works, and notes of interest to professional linguists.

As supplements to LANGUAGE, the Linguistic Society of America issues a series of occasional publications, LANGUAGE MONOGRAPHS. These are included in the subscription price of the journal, but may also be purchased separately. In the LANGUAGE MONOGRAPH series, the Society publishes independently subsidized studies which are too long to appear as articles or are otherwise unsuitable for publication in the journal. The method of application for admission to this series of supplements, and the terms of publication, may be secured from the Secretary of the Society.

SPECIAL PUBLICATIONS in the field of linguistic science are issued by the Society from time to time. These are not included in the subscription price of the journal.

MEETING HANDBOOKS, which contain program listings and abstracts of papers presented at LSA Annual Meetings, 1965 through 1973, may be purchased separately.

A list of publications in print is available from the Secretary of the Society. Current prices for LANGUAGE are as follows: Complete volume 43, $8.00; volume 45 onward, $16.00; single numbers currently in print from volumes 39–44, $3.00; volume 45 onward, $6.00. Reprint editions of volumes 1–42 and 44 of LANGUAGE, Monographs 1–21, 25–26, and Dissertations 1–57 are available from Kraus Reprint Corporation, 16 East 46th Street, New York, N.Y. 10017, and a price list can be obtained from that address.
