The best relationships are on a first name basis.

Especially business relationships.

Knowing the features and benefits of the Dover product line is an extremely important part of my job. But the most critical part of my job is listening.

I have to listen carefully to my customers to be able to determine how Dover high-quality urological products will most effectively meet their needs.

ONLY ONE GETS YOU INTO ALL THE LEADING NEEDLE-LESS IV **SYSTEMS**

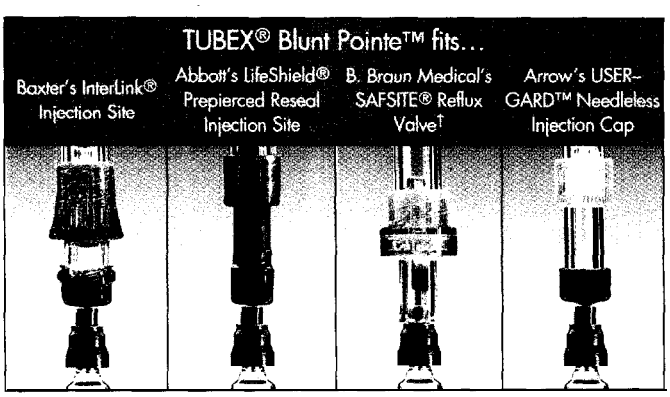

Only **TUBEX®** Blunt **Pointe™** prefilled cartridge unit is compatible with **InterLink®, LifeShield®, SAFSITE®** and **USER-GARD™.***

Unlike other cannulas that can limit you to a single needle-less system, TUBEX® Blunt Pointe™ can help maximize your investment by providin the flexibility of multisystem use plus a broad range of prefiaed products.

What's more, its precision design can make it even easier to use. In a recent independent study,' TUBEX® Blunt Pointe™ took *less* than *half the* effort to insert into the InterLink® System compared to the InterLink® System Cannula-the only cannula used with the Carpuject® needle-less system.

Of course, like all TUBEX® products, TUBEX® Blunt Pointe™ facilitates meeting OSHA and FDA safety standards.' [3]

Open your needle-less IV system to its full potential. Choose TUBEX' Blunt Pointe™ prefilled cartridge unit-the only one that helps your system work harder for you.

Tubex®
(closed injection system)
BluntPointe™
Sterile Cartridge Unit

IV SAFETY MADE **SIMPLE™**

*Consult manufacturer's recommendations regarding "directions for use" for the needle-less system

†For the SAFSITE® Reflux Valve, aseptically swab the Luer slip fitting of the Blunt Pointe™ sterile cartridge tip assembly with a steile,, iindividually wrapped, saturated 70% isopropyl alcohol swab This action will remove the lubricant coating from the tip to facilitate a tight seal.
