ANNOUNCEMENT

Research Assistantships in Mathematical Psychology

There will be available several research assistantships in mathematical psychology at The University of Chicago for the academic year 1937-1938. These assistantships are on a full-time or half-time basis. Preference will be given to graduate students in psychology who have some training in statistical theory and in under-graduate mathematics. Interested applicants should send inquiries to

L. L. THURSTONE,

The University of Chicago.
